**LIST OF ITEMS FOR
TROOP ISSUE**

**ENLISTED MEN'S
CLOTHING AND EQUIPMENT**

HEADQUARTERS ARMY SERVICE FORCES

MAY 1946

INTRODUCTION

1. This is Army Service Forces Quartermaster Supply Catalog, QM 3-1, List of Items for Troop Issue—Enlisted Men's Clothing and Equipment. It contains those standard items of Quartermaster male clothing and individual equipment the authority for requisition and issue of which is found in T/O 21, Clothing and Individual Equipment, Tables of Organization and Equipment, and ASF Catalog QM 4, Allowances of Expendable Supplies.

2. Sections of the QM 3 series are as follows:

- a. Qm 3-1, List of Items for Troop Issue, Enlisted Men's Clothing and Equipment.
- b. QM 3-2, List of Items for Troop Issue, WACs' and Nurses' Clothing and Equipment.
- c. QM 3-3, List of Items for Issue to Posts, Camps, and Stations.
- d. QM 3-4, List of Items for Issue to Troops, Miscellaneous Organizational Equipment.

3. Each section of the QM 3 series contains the following information:

- a. Introduction, including any instructions necessary to the clarity of the text.
- b. An alphabetical index.
- c. Illustrations and descriptions of the principal items contained in the section.

4. Correct nomenclature, stock numbers, and expendability are given for each item in this section.

Illustrations and descriptions are furnished so that those concerned may become familiar with the general appearance of the various items. Types and specifications will vary from time to time, therefore the illustrations cannot always be used for surveys, over, short, and damage reports, or for purposes of procurement. Neither are they necessarily in proportionate size, since it is sometimes expedient to clarify small items or to conserve space on large ones.

5. This section is subdivided into several groupings which are listed in the Contents. A complete index lists every individual item alphabetically, with the number of the page on which it appears.

6. A complete list of sizes is not given for many items in this catalog. In such cases the stock number indicates the coverage, for example, Shoes, Service, Stock No. 72-S-1811-72-S-2106-10. In writing requisitions, lower echelons should specify the particular sizes desired. Higher echelons, in consolidating these requisitions, should refer to ASF Quartermaster Supply Catalog, QM 5, "Stock List of All Items," and insert the proper stock numbers for the various sizes.

7. Each expendable item is marked "X" in the Expendable column in accordance with AR 35-6620.

8. Weight and specification number have been indicated where information was available.

HEADQUARTERS ARMY SERVICE FORCES

Washington 25, D. C., 9 May 1946

Army Service Forces Quartermaster Supply Catalog, QM 3-1, Enlisted Men's Clothing and Equipment, has been prepared under the supervision of The Quartermaster General, and is published for the information and compliance of all concerned.

SHOES, SERVICE, COMPOSITION SOLE

Stock No. 72-S-2225-35—72-S-2248-65

This shoe is the same as the shoe, service, with the exception that there is an outside tap of reclaim rubber which gives at least twice the wear obtained from leather. The issue of this shoe is confined to the United States.

WT: 3.13 lbs per pr.

SPEC: BQD 75B

SHOES, SERVICE

Stock No. 72-S-1812—72-S-2106-10

A welt constructed shoe, blucher pattern, with $\frac{1}{2}$ bellows tongue, outside counter pocket, full toe vamp, toe cap (without box toe), heavy first quality bend outsole, slip tap, and reclaim rubber heel. The upper leather is best quality, heavy, Army Russet shade, side leather fully chromed and vegetable retanned. The shoe is unlined.

WT: 3.13 lbs per pr.

SPEC: BQD 75B

SHOES, SERVICE, HOB-NAIL

Stock No. 72-S-2266-36—72-S-2271-86

This shoe is made like the shoe, service, with the exception that it carries two (2) full length leather soles and has the forepart hob-riveted and the heel is all leather and either hob-riveted or steel rimmed. This shoe is issued on special requisition only.

WT: 3.63 lbs per pr.

SHOES, SERVICE, REVERSE UPPERS, COMPOSITION SOLE

Stock No. 72-S-2350-20—72-S-2356-51

This shoe is made with flesh out upper leather and synthetic rubber sole and heel. The shoe has no toe cap. The issue of this shoe is reserved for overseas use and should not be issued in this country.

WT: 3.18 lbs per pr.

SPEC: BQD 110A Am 1

SHOES, SAFETY, COMPOSITION SOLE

Stock No. 72-S-1553-18—72-S-1563-32

This shoe is similar to shoes, service, reversed uppers, composition sole, except that it has a steel box toe and a neoprene oil-resistant sole and heel. The principal users of this item are Port Battalions.

WT: 3.75 lbs per pr.

SPEC: BQD 135

BOOTS, SERVICE, COMBAT, COMPOSITION SOLE

Stock No. 72-B-2740-20—72-B-2746-41

This boot is similar to shoe, service, reversed uppers, composition sole, except that it has a five (5) inch leather cuff which is fastened by buckles attached to the top of the quarters, thus eliminating the necessity for leggings.

WT: 4.13 lbs per pr.

SPEC: BQD 114A

SHOES, SERVICE, REVERSE UPPERS, HOB RIVETED

Stock No. 72-S-2363-25—72-S-2368-21

These shoes are the same as shoes, service, reverse uppers, composition sole, except that they have a leather sole and heel, and are hob-riveted. The issue of this shoe is reserved for overseas use.

WT: 3.63 lbs per pr.

SPEC: BQD 88A

SHOES, LOW QUARTER, TAN

Stock No. 72-S-754-57—72-S-758-85

A dress type of oxford now provided principally to the Medical Corps. It is not distributed to the regular Enlisted Men.

WT: 2.50 lbs per pr.

SPEC: BQD 55

BOOTS, LEATHER, LACED, LEGGING-TOP

Stock No. 72-B-830-10—72-B-845-50

This is a boot used by the Cavalry. It is made of welt construction 17 inches high, blucher pattern with wrap legging top, three (3) straps, $\frac{1}{2}$ bellows tongue, full toe blucher vamp, toe cap (no box), unlined, leather sole with slip tap and one-half ($\frac{1}{2}$) rubber heel. The upper is cut from the best quality, heavy weight, chrome tanned, dress elk side, Army Russet shade.

WT: 3.78 lbs per pr.

SPEC: BQD 59A

BOOTS AND SHOES

BOOTS, LEATHER, LACED, LOGGER-TYPE, WITH CALKS

Stock No. 72-B-971-70—72-B-974-68

This is a high laced leather boot made with double leather sole with calks for use by Engineering Troops in performing logging operations.

SPEC: BQD 249

BOOTS, LEATHER, LACED, EM

Stock No. 72-B-391—72-B-596

LIMITED STANDARD—To be issued until exhausted

BOOTS, LEATHER, LACED, WATER-PROOF

Stock No. 72-B-1000—72-B-1117

LIMITED STANDARD—To be issued until exhausted
WT: 4.13 lbs per pr.

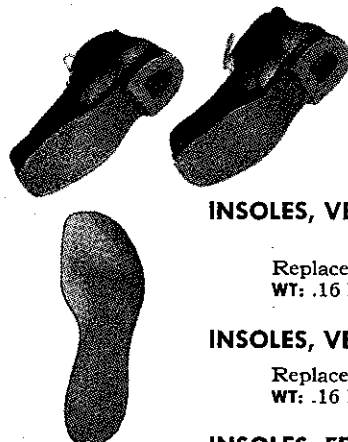

BOOTS, SKI-MOUNTAIN, WITH RUBBER CLEATED SOLE

Stock No. 72-B-2846-10—72-B-2850-14

This boot has superseded boots, ski-mountain, and boots, ski-mountain with tricouni nails. It is similar except that it has a rubber cleated sole in place of a plain leather sole or leather sole with nails. This boot makes no noise and does not cause sparks as the nailed boot sometimes does; wears better and are warmer and lighter. This boot requires the wearing of one pair of socks, wool, cushion sole; two pairs of socks, wool, ski; and one pair of insoles.

WT: 5.50 lbs per pr. (with one pair of felt insoles).

SPEC: BQD 31C

BOOTS, SKI-MOUNTAIN

Stock No. 72-B-2802-20—72-B-2811-29

LIMITED STANDARD—To be issued until exhausted

A combination boot intended for both skiing and mountain climbing. It is constructed on a last having a rocker bottom in order to facilitate walking or climbing, and the square toes and grooved heels are designed to fit ski bindings. One pair of socks, wool, cushion sole; two pairs of socks, wool, ski; and one pair of insoles are worn with this boot.

WT: 7.00 lbs per pr.

INSOLES, VENTILATING-TYPE, FUSED

Stock No. 72-I-7020—72-I-7080

LIMITED STANDARD—To be issued until exhausted

Replacement insoles for the boot, jungle, cotton.
WT: .16 lbs.

SPEC: BQD 136A

INSOLES, VENTILATING TYPE, M-1944

Stock No. 72-I-7494—72-I-7568

Replacement insoles for the boot, combat, tropical.
WT: .16 lbs.

INSOLES, FELT, BLOCKER TYPE

Stock No. 72-I-425

These are felt insoles for replacement to be cut by the men in the field to the shape required. The insole is used for insulation and to absorb moisture. It is kept in the boot or shoe only when actually being used. As soon as the footwear is taken off it must be removed and dried.

WT: .20 lbs.

CREEPERS, ICE

Stock No. 74-C-311

An adjustable, short spiked plate which is attached by straps and buckles to the sole of the shoe and used to give secure footing where icy conditions prevail (used chiefly around airports). May be worn with any type of shoe except nailed or rubber cleated ski-mountain boots, which grip adequately on average ice and snow.

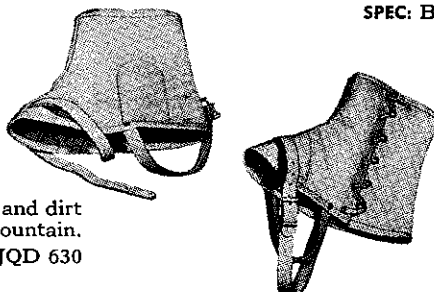

WT: .69 lbs per pr.

SPEC: BQD 103

GAITER, SKI

Stock No.
72-G-1000 Large
72-G-1002 Medium
72-G-1004 Small

A short canvas legging used to prevent snow and dirt from entering the top of the boot, ski-mountain.

WT: .75 lbs per pr.

SPEC: JQD 630

PROTECTORS, SOLE, SKI-BOOT

Stock No. 72-P-10005

A metal protector, screwed and nailed to the edge of the sole of the boot, ski-mountain, where they will be in contact with the side of the bindings, ski, to prevent the leather from softening and wearing at the points of contact.

WT: .06 lbs.

1111 1111 1111 1111 1111 1111
1111 1111 1111 1111 1111 1111

NAIL, BOOT, MOUNTAIN Expendable

Stock No.

42-N-2605 Center

42-N-2600 Edge

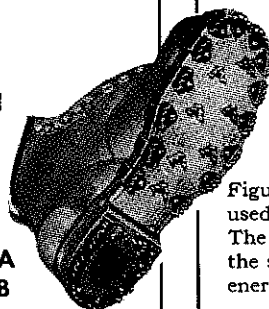

42-N-2610 Heel-Plate Size A

42-N-2611 Heel-Plate Size B

A set of hard steel and tricouni type nails for use on mountain boots, to get a safe grip on ice, snow, rock, steep grass, gravel, etc. They are used where difficult mountainous terrain is likely to be encountered.

WT: .09 lbs

SPEC: OQMG 68

CRAMPONS, MOUNTAIN

Stock No.

74-C-310-50 Large

74-C-310-55 Small

FIG. 1

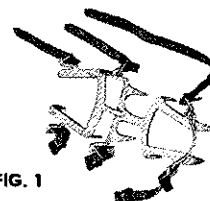

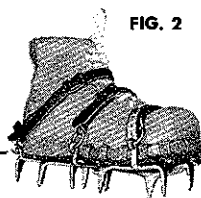

Figure 1—A steel framework with spikes $1\frac{1}{2}$ inches long used on boots and shoes when steep ice must be climbed. The spikes dig into the ice, give secure footing, and allow the soldier to advance more quietly, faster and with less energy than with any other type of footgear. Crampons

may also be used on steep grass slopes. Figure 2—The crampon affixed to the boot.

FIG. 2

WT: 3.94 lbs per pr. SPEC: BQD 104

BOOTS, BLUCHER, HIGH TOP

Stock No. 72-B-128-12—72-B-132-18

These boots are highly greased and are not intended for use in extreme cold. Although they are relatively waterproof, because of the double vamp construction, they do soak through when exposed to wet conditions for long periods of time. Once wet, they are very difficult to dry. These boots should therefore be used only in moderate weather, neither too wet or too cold. Boots, blucher, high top, are designed to be worn with a pair of insoles, one pair of cushion-sole socks and one pair of wool ski socks.

WT: 5.13 lbs per pr.

SPEC: BQD 30B

SHOE PAC, 12-INCH, M-1944

Stock No. 72-S-8790—72-S-8824

This shoe replaces shoe pac, 12 inch, and is similar to it except that it has a full $\frac{7}{8}$ inch heel, a steel shank, a more waterproof seam between the leather and rubber and a fuller last so as to more comfortably accommodate two pairs of ski socks and one pair of felt insoles. It is supplied in three widths so as to provide a better fit. This shoe is issued in the same size tariff as other ordinary shoes. It has been designed for wear over two pairs of wool socks without necessity for issuing it in a larger size.

WT: 4.75 lbs per pr.

SPEC: BQD 57G Am 1

OVERSHOES, ARCTIC

Stock No. 72-O-275—72-O-295

WT: 3.00 lbs

OVERSHOES, ARCTIC, ALL RUBBER

Stock No. 72-O-400—72-O-422

LIMITED STANDARD—To be issued until exhausted

WT: 3.75 lbs per pr.

SPEC: ZZ-O-841

OVERSHOES, ARCTIC, CLOTH TOP

Stock No. 72-O-450—72-O-472

LIMITED STANDARD—To be issued until exhausted

WT: 3.38 lbs per pr.

SPEC: BQD 56

OVERSHOES, ARCTIC, M-1945

Stock No. 72-O-625—72-O-635

A waterproof, five buckle rubber top overshoe which fits over the boot, service, combat, or shoe, service, and has a good fit at the ankle. This overshoe provides good insulation and can be easily cleaned, donned and removed. It will take the place of the overshoe, Arctic, cloth top.

WT: 3.75 lbs per pr.

SPEC: BQD 267

BOOTS AND SHOES

BOOTS, MUKLUK

Stock No.

72-B-1130 Large

72-B-1131 Medium

72-B-1132 Small

This is the warmest type of footwear issued and is used in extremely cold climates. It has a bottom made of dry tanned kidskin or buckskin and a fabric top. The boot is permeable, allowing perspiration of the feet to evaporate rather than confining it within the boot, causing freezing of the feet. These boots are worn with two pairs of insoles, felt; one pair of socks, wool, cushion sole; two pairs of socks, wool, ski, and one pair of socks, felt. Its principal value is that it is roomy, allowing the use of many pairs of socks without constricting the foot. As it is not waterproof it cannot be used in weather warmer than 20° F. or in wet snow.

WT: 1.13 lbs per pr. (with two felt insoles).

SPEC: BQD 86B

BOOTS, ARCTIC, FELT

Stock No.

72-B-126-500 Large

72-B-126-510 Medium

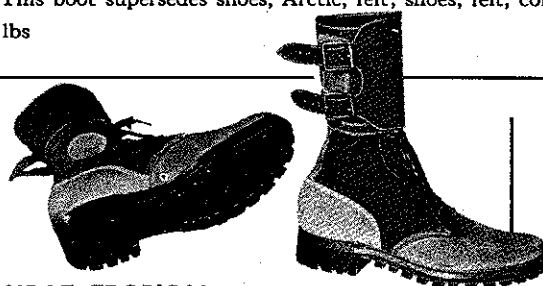

72-B-126-515 Small

72-B-126-520 X-Large

Boot, Arctic, felt, is a lightweight boot approximately 10½ inches high. The boot laces up to above the ankle and a 5-inch cuff with two buckles is attached to the top of the quarters similar to the combat boot. The proper sock combination to be worn inside the boot is as follows: 1 pr. felt insoles, 1 pr. socks wool cushion sole, 2 pr. socks wool ski.

The upper part of the boot is made of white felt which provides camouflage in snowy areas. The sole is made of the best grade felt to provide warmth, adequate traction and durability. The heel is made with a leather base and rubber top lift. This boot supersedes shoes, Arctic, felt; shoes, felt, cold climate, and overshoes, Arctic, cold climate.

WT: 3.63 lbs

BOOTS, COMBAT, TROPICAL

Stock No. 72-B-134-184—72-B-134-469

Boots, combat, tropical, give adequate protection and support to the wearer's ankle and foot; provide good fit and comfort under conditions of terrain encountered in tropical areas; and provide against entry of mud, sand, and insects to the full height of the boot. This boot supersedes the boot, jungle, cotton.

WT: 3.88 lbs.

OVERSHOES, BOAT, SAFETY-SOLE

Stock No. 72-O-755—72-O-765

This is an all rubber, five buckle shoe worn over regular shoes and used by the Amphibious Forces. The sole is so constructed that it grips well on slippery surfaces.

WT: 3.38 lbs per pr.

SPEC: BQD 116

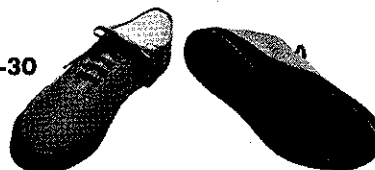

SHOES, BOAT, SAFETY-SOLE

Stock No. 72-S-62-20—72-S-65-30

An oxford type shoe with a canvas top and a sole which grips well on slippery surfaces. It is used by the Amphibious Forces.

WT: 1.75 lbs per pr.

SPEC: BQD 117

BOOTS, RUBBER, KNEE, M-1937

Stock No. 72-B-1261—72-B-1271

This boot is an ankle fitting all rubber boot with a laced throat just below the knee. Boots as a rule are used almost entirely by the Engineers.

WT: 3.75 lbs per pr.

SPEC: BQD 112A

BOOTS, RUBBER, HIP

Stock No. 72-B-1149—72-B-1168

An all rubber boot reaching to the hip and being held up by a strap connected with either a belt or suspenders.

WT: 8.25 lbs per pr.

SPEC: BQD 113A Am 1

WADERS, OVER-THE-SHOE

Stock No.

72-W-5000 Large

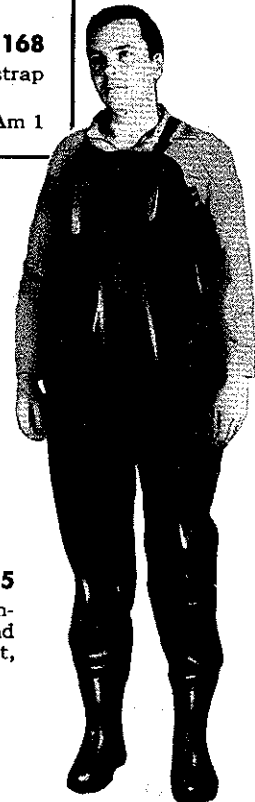

72-W-5010 Medium

72-W-5020 Small

Waders, over-the-shoe, are a combination of the hip boot and an overall, made entirely of rubber. The waders reach up under the arm pits and across the chest and back and fits reasonably tight to effect a fairly good water seal. The wader is put on over the service shoe, as its title indicates, and is worn by a man unloading boats when establishing a beach head or in deep water construction work.

WT: 8.57 lbs.

SPEC: BQD 252

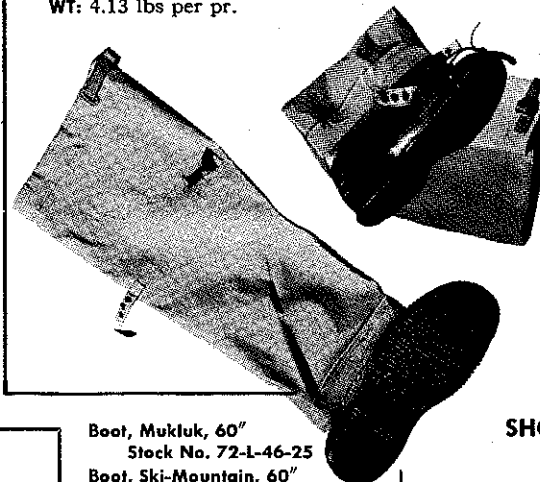

BOOTS, KNEE, WADER

Stock No. 72-B-343-505—72-B-343-555

This item consists of a laced, waterproof, rubber foot combined with a waterproof fabric upper fastened below and above the knees for use over shoes, service, or boots, combat, and trousers.

WT: 4.13 lbs per pr.

SPEC: 8-31E

COATS AND JACKETS

COATS AND JACKETS

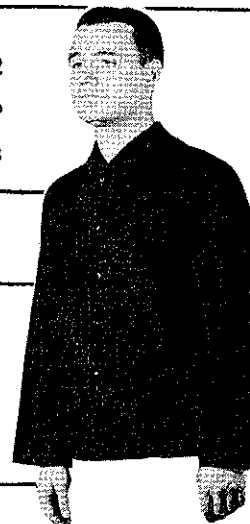

JUMPER, DUNGAREE

Stock No. 55-J-670—55-J-682

Jumper, dungaree, is made of blue denim, button front, with two lower front pockets and is used by the Mine Planters.

WT: 1.19 lbs

SPEC: JAN-J-53

JACKET, FIELD, od

Stock No. 55-J-210—55-J-300

LIMITED STANDARD—To be issued until exhausted

A short combat jacket of windproof, water-repellent cotton poplin with flannel lining and with button and zipper closure.

WT: 2.35 lbs

SPEC: PQD 20B

JACKET, FIELD, WOOL, od

Stock No. 55-J-384-510—55-J-384-940

This jacket, made of 18 oz. wool serge in od shade No. 33 with lining of matching cotton fabric, is a single breasted, five button, fly front, hip length jacket with lapels, convertible collar and shoulder loops. The fitted waist band has side buckle adjustments and an extension tab with concealed closure. The two box pleated patch, breast pockets have shaped flaps and concealed closure. There are two inside hanging breast pockets. The two-piece sleeves have banded adjustable cuffs. As it is a component of the field uniform, it should always be fitted over the undershirt, wool 50-50, the shirt, flannel, od, and the sweater, highneck.

WT: 3.02 lbs

SPEC: PQD 437

JACKET, LIGHTWEIGHT, SPECIAL

Stock No. 55-J-543-500—55-J-543-550

A poplin and oxford cloth jacket, issued in the tropics in lieu of the herringbone twill jacket.

WT: .97 lbs

JACKET, FIELD, PILE, od, TYPE B

Stock No. 55-J-382-260—55-J-382-430

A piled lined (artificial fur) jacket backed with cotton, sometimes substituted for the jacket, field, wool, od, for use under combat conditions. This garment is not windproof or water-resistant and should be worn in the field with the jacket, field, M-1943 or one of the parkas.

WT: 3.25 lbs

SPEC: PQD 368B

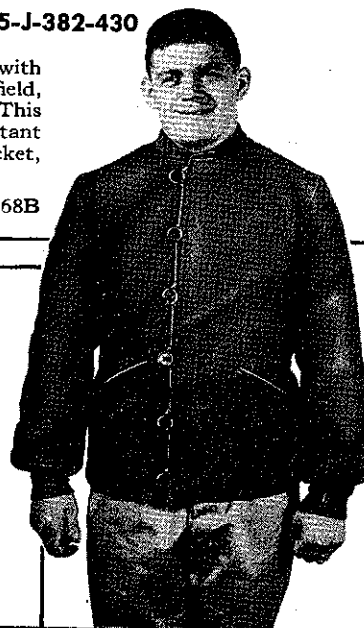

JACKET, FIELD, M-1943

Stock No. 55-J-190—55-J-192-98

The jacket, field, M-1943, is a windproof, water-repellent jacket which is used in temperate and cold climates as the necessary windproof outer shell. It may be worn over woolen underwear, shirt, sweater and either the jacket, field, wool, od, or jacket, field, pile, or any combination of these. There are two breast pockets and two lower pockets which have unusual capacity. Although it is not intended that these be filled at all times, they are extremely useful in emergencies and at times when the pack is not carried.

WT: 2.25 lbs

SPEC: PQD 370E

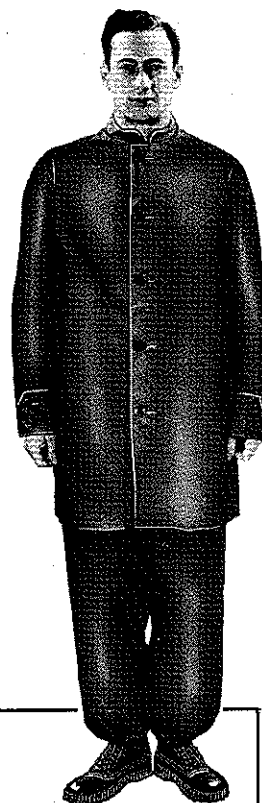

OVERCOAT, WOOL, MELTON, od, ROLL COLLAR, 32 oz

Stock No. 55-O-8900—55-O-9115

JACKET, WINTER, N-1

Stock No. 55-J-548-436—55-J-548-450

This jacket is similar to the combat jacket. It is made of jungle cloth and is water-repellent and windproof, used mainly by Army personnel, operating off shore, for protection against cold, rain and spray.

WT: 3.50 lbs

SPEC: Navy 37-J-3-(INT)

COAT, MACKINAW, od

Stock No. 55-C-33190—55-C-33100

A short top coat of heavy weight poplin with convertible collar.

WT: 5.00 lbs.

SPEC: PQD 252A

OVERCOAT, PARKA TYPE, WITH PILE LINER

Stock No. 55-O-3139-25—55-O-3139-45

This is a two-piece garment consisting of an outer shell with a pile lined hood, made of windproof material, and an inner pile liner. The pile liner snaps into the outer shell. This garment is intended primarily for men with comparatively inactive tasks such as driving vehicles, standing sentry, etc.

WT: 6.38 lbs

SPEC: PQD 392

PARKA, FIELD, PILE

Stock No. 55-P-4130 Large
55-P-4131 Medium
55-P-4132 Small

This parka is used in regions of extreme cold. It is not windproof and therefore is always worn, hair side in, underneath the olive-drab cotton field parka. The two parkas are worn as a unit and are ordinarily put on and taken off together without removing one from the other.

WT: 3.19 lbs

SPEC: PQD 369B

PARKA, FIELD, COTTON, od

Stock No. 55-P-4103 Large

55-P-4104 Medium

55-P-4105 Small

Parka, field, cotton, od, is well adapted to windy and cold climates. It is used as part of the windproof outer shell in climates which are too severe for the field jacket. The parka is a long-skirted jacket with a hood, with closures at the neck, wrists, and waist. When closed, these make it very warm; but they may be opened to permit adequate ventilation of the clothing when the weather is milder. There is a large pouch-pocket on the front which has two openings. The parka is often worn over the pile parka in extremely cold weather, and over other types of clothing in less severe weather.

WT: 2.44 lbs

SPEC: PQD 376

PARKA, FIELD, OVER, WHITE

Stock No. 55-P-4118 Large

55-P-4119 Medium

55-P-4120 Small

55-P-4121 X-Large

This parka is used with white overtrousers and white overmittens to camouflage the soldier on snowy terrain. Unless it is absolutely clean, it will stand out against a white background. Therefore, it is used only for camouflage purposes and never as a substitute for any other parka.

WT: 1.84 lbs

SPEC: PQD 373

PARKA, REVERSIBLE, SKI, FUR TRIMMED

Stock No. 55-P-4903 Large

44-P-4906 Medium

55-P-4909 Small

LIMITED STANDARD—To be issued until exhausted

This parka consists of two layers of windproof, water-repellent cotton poplin, one layer white and one layer od. It is fully reversible and can be used with either the white or od side out. It has button closure and fur trimmed hood.

WT: 2.88 lbs

SPEC: PQD 201A

PARKA, WET WEATHER

Stock No. 72-P-2510 Large

72-P-2515 Medium

72-P-2520 Small

72-P-2525 X-Large

Parka, wet weather, is made from waterproof, two ply laminated material combined with a synthetic resin.

WT: 1.97 lbs

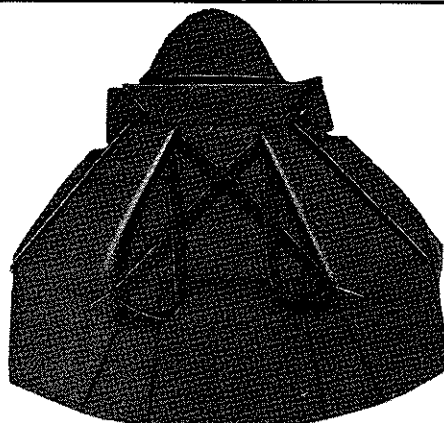

SPEC: PQD 288C

hood raised

JACKET, MOUNTAIN

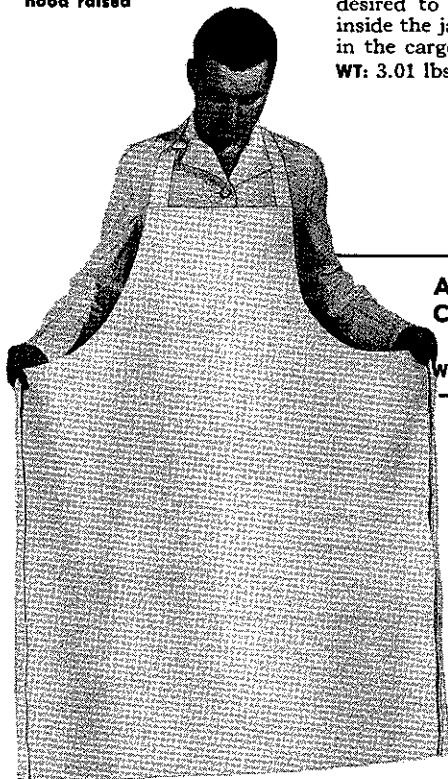

Stock No. 55-J-544-25—55-J-545-80

LIMITED STANDARD—To be issued until exhausted

A windproof, water-repellent jacket for Mountain Troops. The hood can be folded underneath the collar. There are four (4) large roomy pockets in the front and a large cargo pocket extending across the back, similar to the type found in many hunting jackets. The large number of pockets makes it possible to carry many items when it is not desired to wear the rucksack. The suspenders attached inside the jacket help to support and distribute the weights in the cargo pockets.

A cold climate mitten worn with mitten, insert, trigger finger, type 1, providing satisfactory protection to approximately -10° F. for active men. Trigger finger on the back of the mitten may be tucked down inside when not required or when the mitten is used for heavy duty. Deerskin leather palm with 9 oz. sateen back and gauntlet. One size only.

WT: .44 lbs

SPEC: CQD 105 Am 1

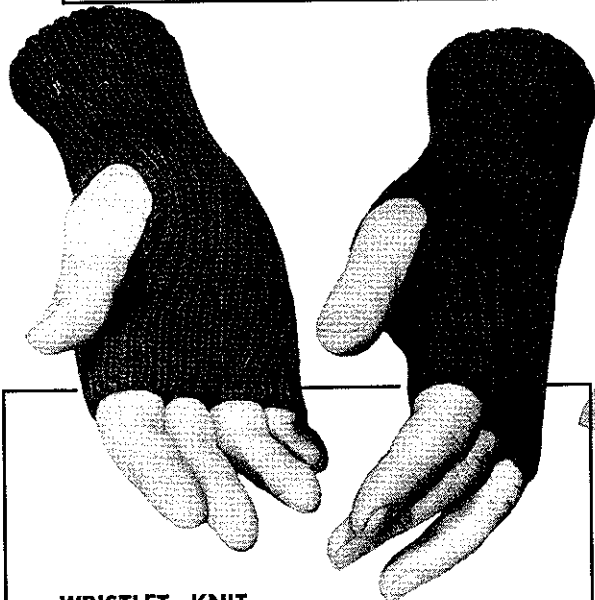

MITTEN, INSERT, TRIGGER FINGER, TYPE 1

Stock No. 73-M-2735 Large
73-M-2740 Medium

A knitted wool liner to be worn inside mitten-shell, trigger finger, type 1, to form a cold climate hand-wear assembly. Trigger finger on the back to fit in the outer shell. Sizes: medium and large.

WT: .21 lbs

SPEC: PDQ 156H

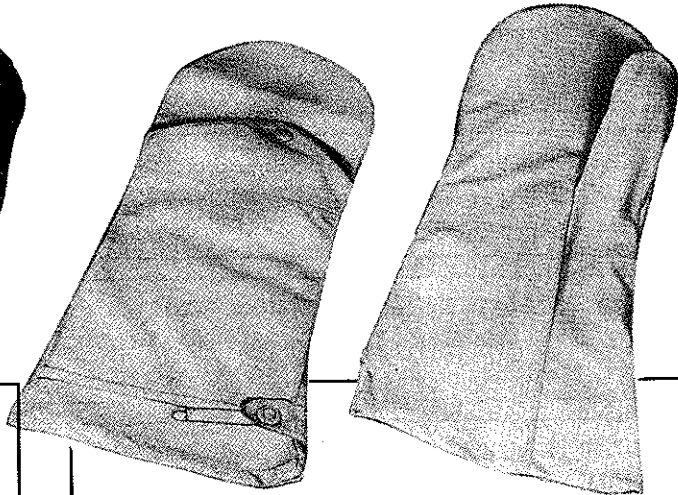

WRISTLET, KNIT

Stock No. 73-W-10000

LIMITED STANDARD—To be issued until exhausted

A fingerless glove, joined between the middle and third fingers, for use inside any cold weather hand covering to insure a good closure at the wrist. It is also useful for delicate work in cold weather when the fingers must be free but the rest of the hand needs protection.

WT: .09 lbs

MITTEN, OVER, WHITE

Stock No. 73-M-3250

A snow white camouflage mitten to be worn over the mitten-shell, trigger finger. Made of 5 oz. poplin. One size only.

WT: .22 lbs

SPEC: CQD 114A Am 2

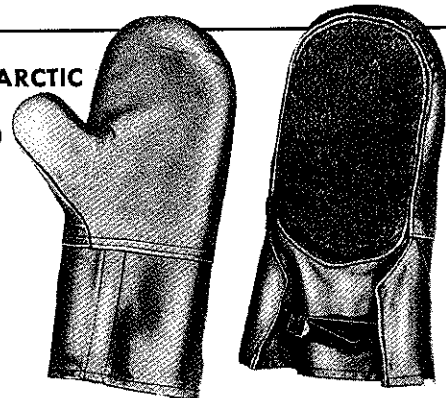

These mittens provide warmth under all conditions of work for a minimum of eight hours at low temperature when worn over mitten-inserts, trigger finger. Easily donned when the hands are cold. The pile on the outside of the glove may be used as a face warmer. Mittens, Arctic, consist of:

MITTEN—INSERT, ARCTIC

MITTEN—SHELL, ARCTIC

WT: .56 lbs

SPEC: CQD 1004

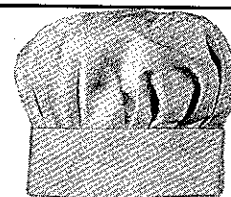

**CAP, FIELD, COTTON,
od, WITH VISOR**

Stock No.
73-C-16010-73-C-16035

This cap is useful in both temperate and cold weather. The visor keeps the sun out of the eyes. The earflaps are pulled down to protect the ears in cold weather and are turned up inside the cap when the weather is warm. This cap can usually be worn under the steel helmet without readjusting the helmet-liner headband.

WT: .25 lbs
SPEC: PQD 381B Am 2

CAP, BAKER'S AND COOK'S, WHITE

HAVERSACK, M-1928

Stock No. 74-H-93

LIMITED STANDARD—To be issued until exhausted

Haversack, M-1928, is a field pack into which the enlisted man's individual equipment is rolled. It is provided with shoulder straps and has attaching tabs for the bayonet and intrenching tools. The carrier, pack, is used to increase its carrying capacity when necessary to carry a full pack.

WT: 2.06 lbs

BAG, CANVAS, FIELD, od, M-1936

Stock No. 74-B-53

A small canvas bag to carry personal equipment in the field, which can be worn over the shoulder when using strap, carrying, od, bag, canvas, field, M-1936; strap, carrying, general purpose, or on the back using suspenders, belt.

WT: 1.59 lbs

SPEC: JQD 20B

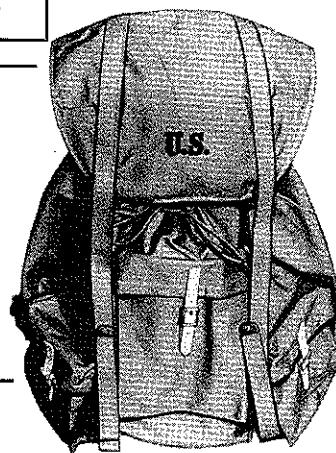

RUCKSACK

Stock No. 74-R-350

A large capacity carrying sack, mounted on a tubular steel frame, primarily for use of troops on skis. The design is similar to the well-known Bergans type rucksack. The weight is distributed low around the hips, and the belly strap prevents swinging of the rucksack when in motion. The sack is large enough to carry all the Mountain Trooper needs for short winter patrols. With the sack removed the two frames can be made into an emergency sled using two pairs of skis, four pairs of adaptors, ski, and four bands, contraction.

BOX, MATCH, WATERPROOF

Stock No. 74-B-788-40

A waterproof match box made of plastic for an emergency supply of matches. It is fitted with a sparking bar at the bottom, along which a knife point can be scratched to produce a hot spark for making a fire when there are no matches.

WT: .06 lbs

SPEC: JQD 115A

PACKBOARD

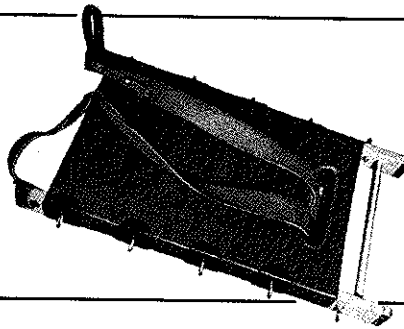

Stock No. 74-P-25

LIMITED STANDARD—To be issued until exhausted

A canvas and wooden carrying frame for transporting heavy or awkward loads by manpower. The load lashed to the back of the board can be so distributed that a heavy load may be carried with relative ease. Unlike the rucksack, this carrying frame permits the center of gravity of the load to be set high.

WT: 7.00 lbs

SPEC: JQD 112A

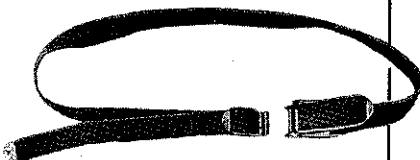

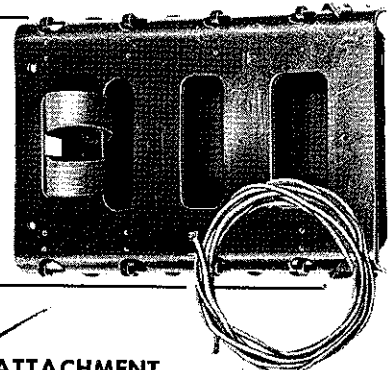

PACKBOARD, PLYWOOD

Stock No. 74-P-27-20

The back and sides of the packboard, plywood, are of bent plywood. There is a piece of canvas lashed across the side which rests on the back with shoulder straps and lashing hooks. The use of this item is identical to the packboard.

WT: 4.19 lbs

SPEC: JQD 1004A Am 2

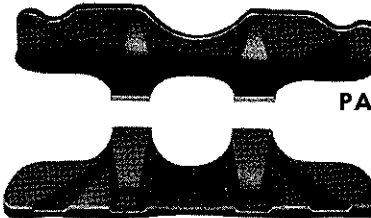

STRAP, QUICK RELEASE, PACKBOARD, TYPE I

Stock No. 74-S-349-80

Webbing straps with quick release buckles, sometimes used in place of lashing cord with packboards, to attach heavy weapons or other rigid loads which must be loaded and unloaded rapidly.

WT: .38 lbs

SPEC: JQD 437

ATTACHMENT, PACKBOARD, PLYWOOD, CARGO

Stock No. 74-A-33-25—Expendable

These are lightweight metal shelves which may be slipped over the top or over the lower edge of each of the openings of the packboard, plywood, to facilitate carrying heavy weapons or square sided articles such as boxes, 5 gallon cans, ammunition cloverleaves, etc.

WT: .52 lbs

SPEC: JQD 520 Am 3

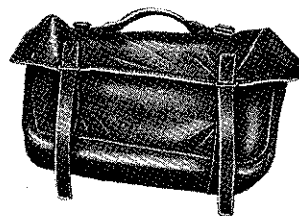

SUSPENDERS, PACK, FIELD, CARGO-and-COMBAT

Stock No. 74-S-392-300

WT: .95 lbs SPEC: JQD 650

The pack, field, combat, may be used with the suspenders to form a combat pack or may have the pack, field, cargo, attached to it by means of quick release straps to form the full pack. Tabs and straps are provided to hold the shovel, intrenching, and the bayonet to the combat pack. Straps are provided to hold a horseshoe roll. The pack, field, cargo, may be used alone as a furlough bag. The suspenders may be used alone to support the cartridge belt.

Pack, field, cargo, and pack, field, combat, are replaced by the pack, field, cargo and combat, M-1945, which is very similar. However, the combat and cargo packs of both are not interchangeable because double bar buckles are used on the pack, field, cargo and combat, M-1945, to hold the two parts together in place of the quick-release buckles.

PACK, FIELD, CARGO

STRAP, TOE, SKI, 18"

Stock No. 74-S-388-30—Expendable

The toe strap of the binding, ski.

WT: .09 lbs

NOTE: This item is issued separately as well as with the binding, ski, mountain.

SKIS, MOUNTAIN, WITHOUT BINDING

Stock Nos. 74-S-169—74-S-172-30

A steel edged ski primarily for mountain use when good control is necessary. It takes the standard ski binding and mountain ski boot.

WT: 11.00 lbs per pr.

SKIS, CROSS-COUNTRY, MODIFIED, WITH BINDING, LENGTH 7' 6"

Stock No. 74-S-167-300

This is the ski, mountain, trimmed down to approximately 3 inches. It has no steel edges. A flexible leather binding is supplied mounted on the ski. It is used for training purposes in Zone of Interior. Any footwear can be used in this binding.

WT: 10.25 lbs per pr.

SKIS, CROSS-COUNTRY, WITH BINDING, LENGTH 7' 3"

Stock No. 74-S-167-35

Ski, cross-country, with binding, length 7' 3", approximately 3" in width, is the same design as the ski, cross-country, modified, with binding. It has a flexible binding mounted on it and does not require the ski boot. It can be used with shoe pacs, mukluks, felt shoes or the mountain ski boot. It is for Arctic use.

WT: 10.00 lbs per pr.

SPEC: BQD 119A

STRAP, SKI, SAFETY

Stock No. 74-S-360-5

A short strap used to fasten the ski binding loosely to the boot, ski-mountain. This prevent the ski from being lost down a steep hill if a fall causes the boot to come out of the binding.

WT: .09 lbs

SPEC: OQMG 45A

74-C-229-20

Length

7'

7' 3"

7' 6"

Climbers, ski, mohair, are strips of mohair fabric worn on the bottom of skis to prevent back sliding when climbing steep snow slopes. The climbers are held to the skis by non-freezing, buckle straps, which can be removed while wearing gloves.

WT: .51 lbs

SPEC: BQD 44B

Fig. 2—Climbers fastened on the tip of the skis

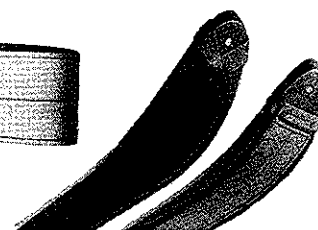

FIG. 2

SNOWSHOES, TRAIL, 10" x 58"

Stock No. 74-S-310

A standard type snowshoe used especially in areas free from brush and other obstructions. Both the snowshoe, bearpaw, and the snowshoe, trail, can generally be used interchangeably.

WT: 5.50 lbs per pr. (without bindings)

SPEC: 23-108

FIG. 1

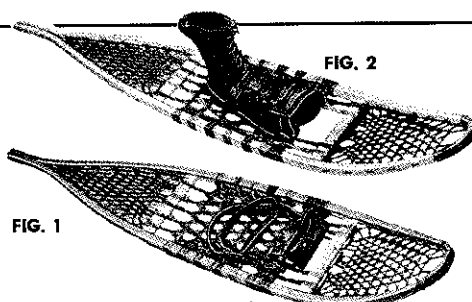

Fig. 1—The use of the binding

BINDING, SNOWSHOE, TRAIL

Stock No. 74-B-306

These bindings permit the heel of the boot to rise off the snowshoe, but allow the tail to drag on the ground like a toe slipper.

WT: .88 lbs per pr.

SPEC: BWD 139A

Fig. 2—A shoe pac fitted to the binding

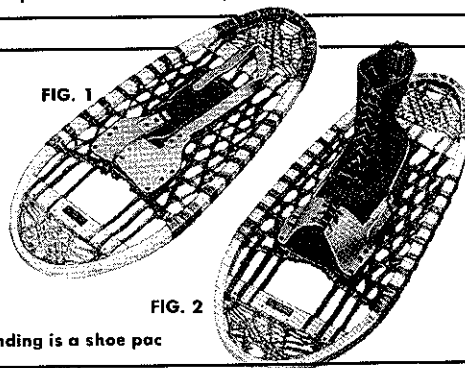

FIG. 1

SNOWSHOES, BEARPAW, 13" x 28"

Stock No. 74-S-301-50

Snowshoe, bearpaw, is a standard type shoe of particular value when working around vehicles and sleds, or in areas where there is a great deal of brush and other obstructions on the ground, or in steep broken terrain.

WT: 4.00 lbs per pr. (without bindings)

SPEC: BQD 140 Am 2

BINDING, SNOWSHOE, MOUNTAIN

Stock No. 74-B-305

Bindings issued on the snowshoe, bearpaw, to attach the snowshoe to any cold climate footgear.

WT: 1.50 lbs per pr.

SPEC: OQMG 69A

Fig. 1—The binding attached to the snowshoe

Fig. 2—The shoe attached by the binding is a shoe pac

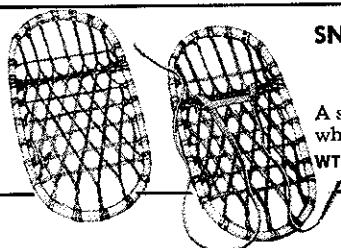

SNOWSHOES, EMERGENCY, 10½" x 20"

Stock No. 74-S-309

LIMITED STANDARD—To be issued until exhausted

A small size, extremely light snowshoe for use of troops operating in deep snow where skis cannot always be used, as in actual combat.

WT: 3.50 lbs per pr.

BRUSH, MOUNTAIN

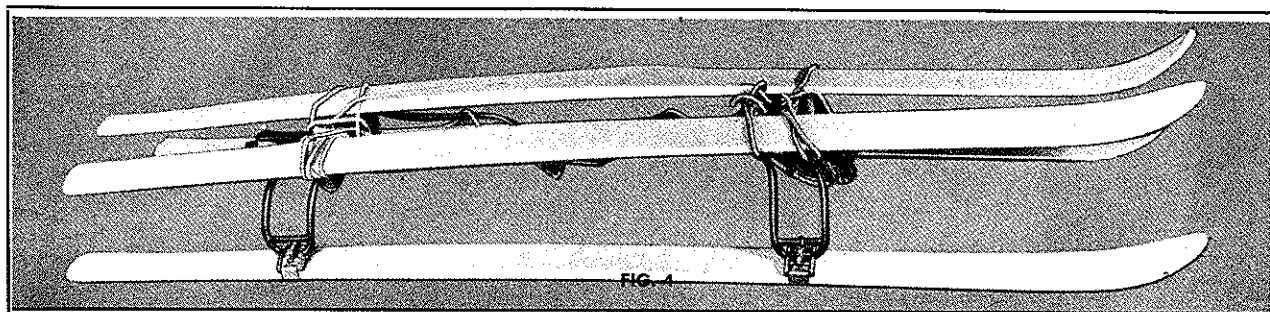

Stock No. 74-B-791

Brush, mountain, is a stiff brush particularly useful to troops camped on snow. It is used to brush snow and frost from clothing and equipment and to keep the tent floor clean.

WT: .06 lbs

SPEC: BQD 84

ADAPTORS, SKI

WT: .28 lbs

Stock No. 74-A-25

SPEC: BQD 87B

BAND, CONTRACTION, SKI

WT: .16 lbs

Stock No. 41-B-46

SPEC: BQD 77B

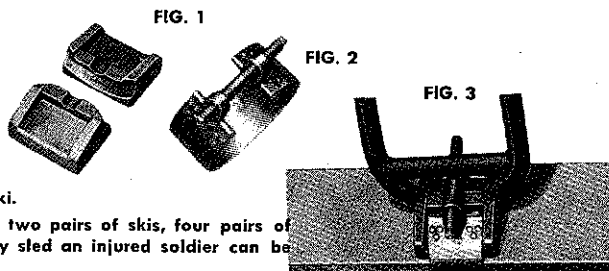

Fig. 1—Adaptors, ski, are a set of aluminum blocks.

Fig. 2—Band, contraction, is a broad steel band.

Fig. 3—The adaptors, ski, and band, contraction, attached to a ski.

Fig. 4—An emergency sled is made from two rucksack frames, two pairs of skis, four pairs of adaptors, ski, and four bands, contraction. Upon this emergency sled an injured soldier can be evacuated, or supplies moved forward.

The bands, contraction, can also be used to clamp the tip of a broken ski or the tip, ski, emergency repair, onto the balance of the ski, permitting the skier to travel after he has broken his ski tip.

MARKERS, TRAIL

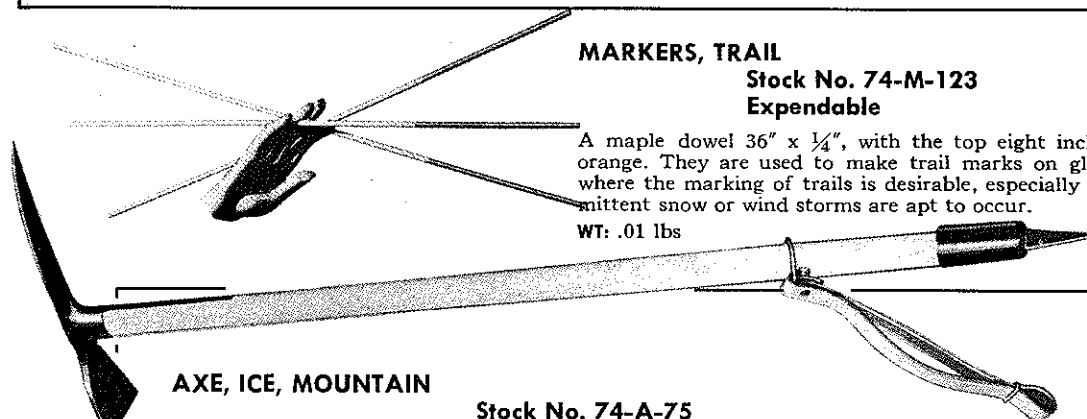

Stock No. 74-M-123

Expendable

A maple dowel 36" x 1/4", with the top eight inches painted black or orange. They are used to make trail marks on glaciers, snow fields or where the marking of trails is desirable, especially in areas where intermittent snow or wind storms are apt to occur.

WT: .01 lbs

SPEC: OQMG 33

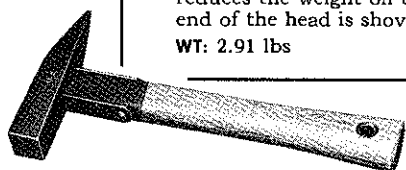

AXE, ICE, MOUNTAIN

Stock No. 74-A-75

An implement used by Mountain Troops for cutting steps in steep ice and snow and for probing for crevasses on glaciers. The shaft is also used as a point around which the mountain rope can be snubbed by one member of a roped party to stop the others from falling in the event of a slip on steep terrain. As a walking stick it reduces the weight on the legs and aids the balance, especially when heavy loads are carried. When the pick end of the head is shoved into turf, gravel or hard snow the blade end makes an excellent handhold.

WT: 2.91 lbs

SPEC: BQD 100

HAMMER, PITON, MOUNTAIN

Stock No. 74-H-50

A special hammer used by Mountain Troops to drive pitons into cracks in the rock and ice. It may be secured to the wrist or neck by a short leather thong looped through the hole in the handle.

WT: .93 lbs

SPEC: BQD 101C

SNAPLINKS, MOUNTAIN—Stock No. 74-S-295

A steel (Type I) or aluminum (Type II) link used to attach the mountain climbing or holding rope to the pitons and to transmit strain from the rope to the piton in the event of a fall. These are made to withstand a pull of 2000 lbs and can be easily manipulated with one hand.

WT: .11 lbs (aluminum), .28 lbs (stainless steel)

SPEC: BQD 243

Fig. 1—The snaplink, mountain

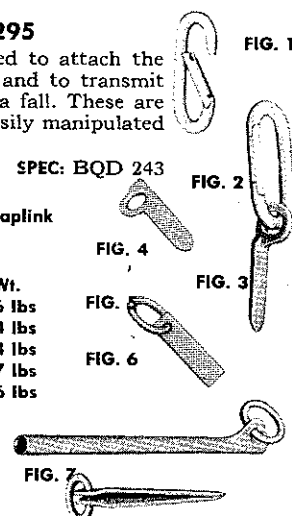

Figs. 2 and 3—Piton, mountain, type I, attached to the snaplink

PITONS, MOUNTAIN

Fig. No.	Stock No.	Type	Wt.
3	74-P-133-15	Type I, Rock, Horizontal	.16 lbs
4	74-P-133-20	Type II, Rock, Short, Vertical	.14 lbs
5	74-P-133-25	Type III, Rock, Wafer	.14 lbs
6	74-P-133-30	Type IV, Ice	.37 lbs
7	74-P-133-35	Type V, Rock, Angle	.26 lbs

Pitons, types I, II, III, and V, are steel spikes which are driven into cracks of various width and shapes in the rock to provide security for men or equipment in operations involving step rock ascents. Type IV, is a hollow tube, which may be driven into ice for the same purpose.

BAG, SLEEPING, ARCTIC

Stock No. 27-B-265 Large

27-B-270 Regular

This sleeping bag is used in extremely cold weather. It consists of two down and feather filled cases, the inner one being a regular mountain sleeping bag. The outer case has a hood and a full mummy shape and is closed with snaps. The two cases may be tied together by means of the tapes at the foot of each bag. When the weather is only moderately cold and it is important to cut down on weight, the outer case may be left at the base.

WT: 12.00 lbs

SPEC: PQD 311

Fig. 1—Inner comforter with zipper.
Fig. 2—Outer comforter with zipper.
Fig. 3—Waterproof wrap cover.
Fig. 4—Bag partially opened.

FIG. 2

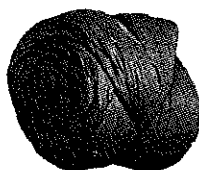

FIG. 4

FIG. 1

FIG. 3

BAG, SLEEPING, MOUNTAIN

Stock No. 27-B-302 Large

27-B-304 Regular

The bag, sleeping, mountain, is a mummy-shaped, down and feather-filled sleeping bag, made in regular and large size, in which an over-lapping tube construction prevents the entry of cold air at the stitching. The shape and design gives maximum warmth with minimum weight. A waterproof bag is provided for protecting the rolled bag.

WT: 6.00 lbs (large); 5.75 lbs (regular)

SPEC: PQD 203C Am 1

CASE, WATER-REPELLENT, BAG, SLEEPING

Stock No. 27-C-123

The case, water-repellent, bag, sleeping, is made of poplin and provides a wind-resistant cover for the bag, sleeping. It is ordinarily used with all sleeping bags. In warm weather, when little protection is needed, the case may be used alone. Two openings in the seam at the foot of the case allow the tie straps on the sleeping bag to be drawn to the outside to hold the items in a compact unit when rolled.

WT: 1.88 lbs

SPEC: PQD 315A

Fig. 1—Bag, sleeping, mountain.

Fig. 2—Carrier, bag, sleeping, mountain.

Fig. 3—Case, water-repellent, bag, sleeping, mountain.

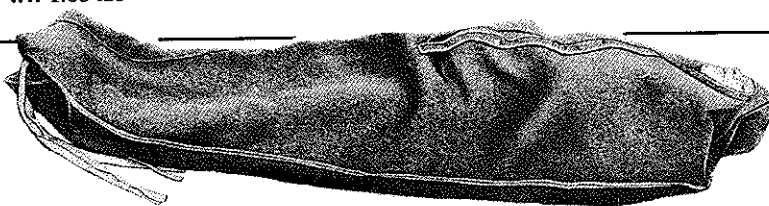

Fig. 4—Bag, sleeping, mountain, rolled up.

BAG, SLEEPING, WOOL

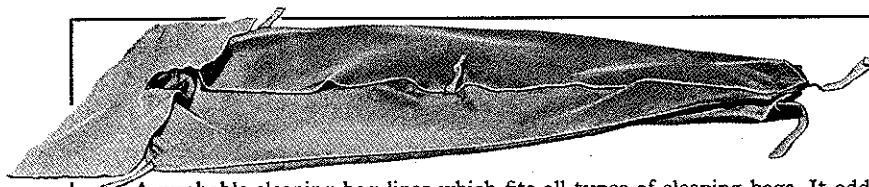

Stock No. 27-B-317

This bag has the warmth of about two 4-pound blankets when used with the water-repellent case. It is not intended for really cold weather, but is adequate down to about 40° F. It may be used inside other sleeping bags to give additional warmth. Several bags may be used one inside the other. Like all sleeping bags, it has a mummy shape, a hood, and a quick-release slide fastener.

WT: 3.63 lbs

SPEC: PQD 273D

LINER, BAG, SLEEPING
Stock No. 27-L-1175

LIMITED STANDARD—To be issued until exhausted

A washable sleeping bag liner which fits all types of sleeping bags. It adds somewhat to the warmth of the bag and keeps it a great deal cleaner. It should always be used with the mountain and Arctic sleeping bags, and may be used if desired with the more easily laundered wool sleeping bag. In cold weather, the liner hood flap may be made into the shape of a funnel to catch moisture from the breath, or may be pulled inside the bag to keep drafts from going down past the shoulders.

WT: 1.41 lbs

SPEC: PQD 361A

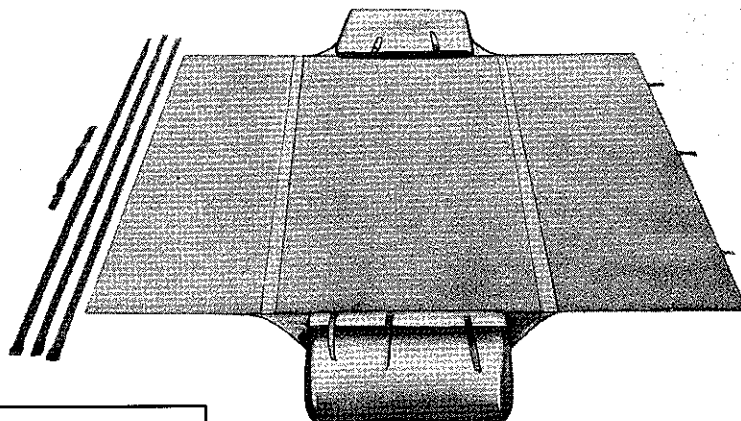

ROLL, BEDDING, WATERPROOFED, M-1935

Stock No. 24-R-110

Roll, bedding, waterproofed, M-1935, is a water-repellent treated fabric roll to be used for carrying bedding and other articles of personal equipment or clothing. When unrolled it may be used as a ground sheet.

WT: 9.22 lbs

SPEC: JQD 669

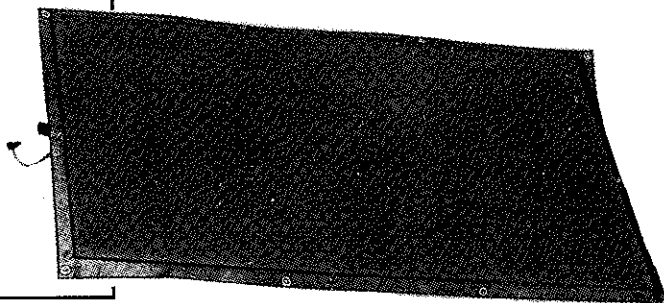

PAD, INSULATING, SLEEPING, FILLED TYPE

Stock No. 27-P-170

LIMITED STANDARD—To be issued until exhausted

The pad, insulating, sleeping, filled type, is issued for use with a sleeping bag. It provides insulation against cold and also resistance to transmission of moisture from the ground into the bag. This pad, 20" x 37", consists of a lightweight filling material contained in a coated fabric case. It can be inflated slightly, but derives its insulating properties from the filling material.

WT: 1.63 lbs

ROPE, CLIMBING, NYLON, 7/16" x 120'

Stock No. 21-R-895

Rope used by soldiers in mountainous regions primarily as the rope to which the soldiers attach themselves to safeguard each other.

WT: 5.81 lbs per coil

SPEC: JQD 310

ROPE, CLIMBING, MANILA, 1/4" x 200'

Stock No. 21-R-885

Used by soldiers in mountain regions as hand-lines or for hauling supplies up or down cliffs, etc.

WT: 3.94 lbs per coil

ROPE, PARACHUTIST'S, 3/8" x 33'

Stock No. 74-R-275

Expendable

A strong rope used by the parachutist to lower himself from high places.

WT: 1.57 lbs per coil

SPEC: 6-309 Am 1

HEADNET, MOSQUITO, M-1944

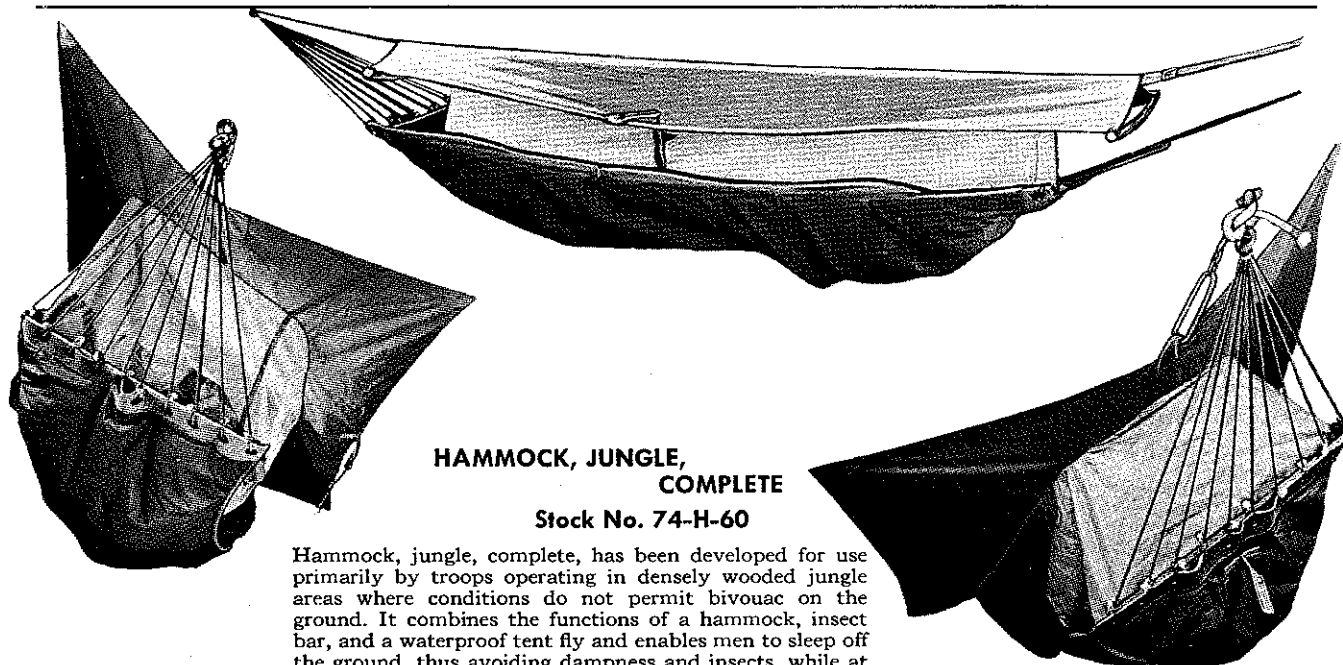

Stock No. 27-H-203

A mosquito headnet with an elastic suspension which fits either over the head or helmet. The net fits over the collar in back and is held in place in front by two elastic loops which attach to the pocket buttons. Grommets hold the netting away from the face and neck even when the wearer is sleeping.

WT: .19 lbs

SPEC: PQD 458

HAMMOCK, JUNGLE, COMPLETE

Stock No. 74-H-60

Hammock, jungle, complete, has been developed for use primarily by troops operating in densely wooded jungle areas where conditions do not permit bivouac on the ground. It combines the functions of a hammock, insect bar, and a waterproof tent fly and enables men to sleep off the ground, thus avoiding dampness and insects, while at the same time carrying the minimum weight and bulk of sleeping equipment. It can be pitched as an individual tent when the soldier is forced to sleep in treeless areas.

WT: 6.00 lbs

SPEC: PQD 256E

SHEATH, MACHETE, LEATHER, 22" BLADE, M-1939

SHEATH, MACHETE, 18" BLADE, M-1942, PLASTIC

Stock No. 74-S-109-50

Sheath, machete, 18" blade, M-1942, plastic, is a durable flexible plastic machete sheath and is replacing the M-1939 and M-1942 models.

WT: .63 lbs

SPEC: JQD 603

The other machete sheaths are made of stout, water-repellent duck that resists mildew and jungle dampness. To keep the sheath from being cut by the

SHEATH, MACHETE, 18" BLADE, M-1942

Stock No. 74-S-109

LIMITED STANDARD—To be issued until exhausted

WT: .75 lbs

SPEC: JQD 189D

MACHETE, 18" BLADE, M-1942

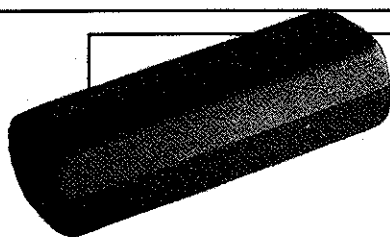

Stock No. 74-M-114

The machete has a smooth, plastic handle, which must not be roughened or covered with adhesive tape if the efficiency of this tool is to be maintained. It must be sharpened to a tapered, rolled knife edge by grinding it on a stone, sharpening, pocket, or a water-cooled, natural-stone grindstone. A hole is drilled in the handle of the machete for attaching a loose wrist cord to pass around the wrist and keep the machete from being dropped.

WT: 1.25 lbs

SPEC: JQD 188G

machete a brass top and metal staples are used. The brass top also serves as a spring to grip the machete blade and thus prevent the machete from falling out of the sheath.

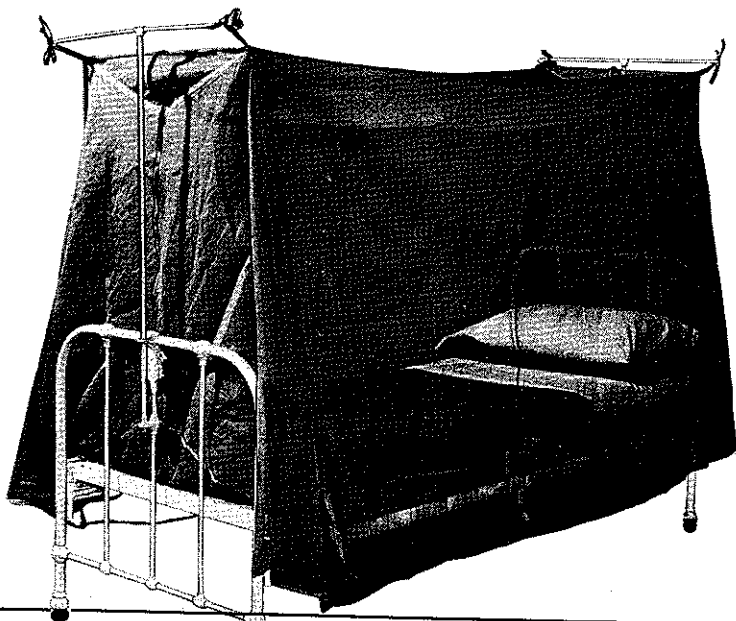

STONE, SHARPENING, POCKET (3½" x 1¼" x 1⅜")

Stock No. 41-S-5227

A small sharpening stone designed to sharpen all types of edged steel instruments such as machetes, knives, shovels, axes, bayonets, etc. Its coarse side is for restoring edges on dull or nicked instruments, and its fine side is for finishing edges so that they are keen and smooth.

WT: .23 lbs

SPEC: JQD 289

BAR, INSECT, FIELD
Stock No. 27-B-343

Bar, insect, field, is a netting canopy with relatively small mesh, designed for protection against sandflies and other small insects; as well as mosquitoes. It has been basically designed for use with the shelter, tent, having tapes that correspond in location to the pegs of the tent, but it may also be used over cots or hospital beds.

WT: 1.90 lbs

SPEC: JQD 263B

**BAR, INSECT, FIELD
MILDEW RESISTANT**
Stock No. 27-B-345

This is the same as the bar, insect, field, but is treated to make it mildew-resistant.

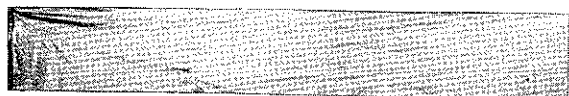

WT: 1.90 lbs

BAR, MOSQUITO
Stock No. 27-B-348

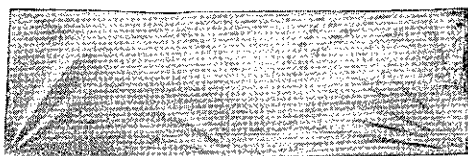

The bar, mosquito, was originally developed for barracks use and is provided with a wide skirt of sheeting around the bottom to prevent damage when tucked in at the bottom of a metal wire-spring cot. For field use this item has been replaced by the bar, insect, field, mildew-resistant, which has a smaller mesh, and thereby protects against sandflies and other small insects, as well as mosquitoes.

WT: 3.00 lbs
