Quartermaster Supply Catalog

I N T R O D U C T I O N

The Quartermaster Supply Catalog, formerly issued as OQMG Circular No. 4, is divided into five (5) Sections:

Section I—Enlisted Men's Clothing and Equipment

Section II—WACs' and Nurses' Clothing and Equipment

Section III—Chests, Kits, and Sets

Section IV—Post, Camp, and Station Equipment

Section V—Miscellaneous

Each Section contains:

- a. Introduction and instructions necessary to the clarity of the section.
- b. An Alphabetical Index.
- c. Illustrations and descriptions of the principal items contained in the section.

The illustrations and descriptions appearing in this Catalog are for the convenience and guidance of those concerned so that they may become familiar with the general appearance of the various items. Types and specifications will vary from time to time; therefore, the illustrations cannot always be used in the case of surveys; over, short, and damage reports; or in connection with procurement.

The only authority for the requisition and issue of the items contained in this Catalog will be found in Tables of Equipment, Tables of Allowances, authorized special lists of equipment, and OQMG Circular No. 1-18, Allowance of Expendable Supplies.

Certain items of equipment containing components and accessories, which require several pages to list and describe, are illustrated as an assembled unit. The descriptions contain references to an appropriate Technical Manual

or Circular wherein the article and its components and accessories are illustrated and described. Examples of such items are Range, Field, M-1937, and Semi-Trailer, 2-Wheel, Van Type, Mobile, Sterilization and Bath, Complete.

Section I contains Enlisted Men's Clothing and Equipment. This section is subdivided into several groupings. Groupings are listed in the Table of Contents and are page-titled on the outside upper corner of each page. The articles in each subdivision have been grouped in relation to their use whenever practical. Each item is listed under its correct nomenclature and stock number. A complete index listing every item alphabetically and the respective page on which it is found is contained at the end of the section.

Where an item has a number of sizes, it is impractical to list the stock numbers of each size in this Catalog. For example, Shoes, Service, which appear on Page 1, have a reference to the full range of sizes that the stock numbers cover; i.e., Stock Number 72-S-1806-35 thru 72-S-2173. To find the stock number for a specific size, use the Q-Supplement to the Federal Standard Stock Catalog. In the event the Federal Standard Stock Catalog is not available, requisitions will show standard nomenclature and sizes, omitting stock number.

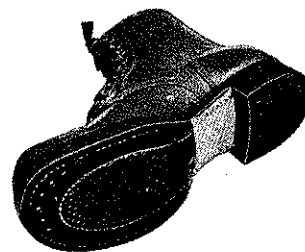

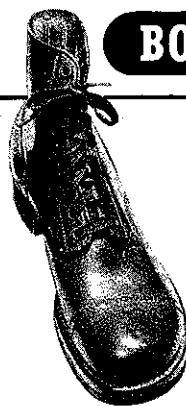

As the necessary data and information is compiled and published, the remaining sections of the Quartermaster Supply Catalog will be issued. Each section will be a complete unit in itself, and will be saddle wire stitched and punched so that all sections may be bound together in a standard 3-ring binder. As changes are made, either a supplement to the pertinent section will be issued, or the entire section revised.

SHOES, SERVICE, COMPOSITION SOLE

Stock No.

72-S-2223-20—72-S-2253-70

This shoe is the same as the shoes, service, with the exception that there is an outside tap of reclaim rubber which gives at least twice the wear obtained from leather. The issue of this shoe is confined to the United States.

**SHOES, SERVICE**Stock No. **72-S-1806-35—72-S-2173**

A welt constructed shoe, blucher pattern, with $\frac{1}{2}$ bellows tongue, outside counter pocket, full toe vamp, toe cap (without box toe), heavy first quality bend outersole, slip tap, and reclaim rubber heel. The upper leather is best quality, heavy, Army Russet shade, side leather fully chromed and vegetable retanned. The shoe is unlined.

SHOES, SERVICE, HOB-NAILStock No. **72-S-2265-10—72-S-2273-22**

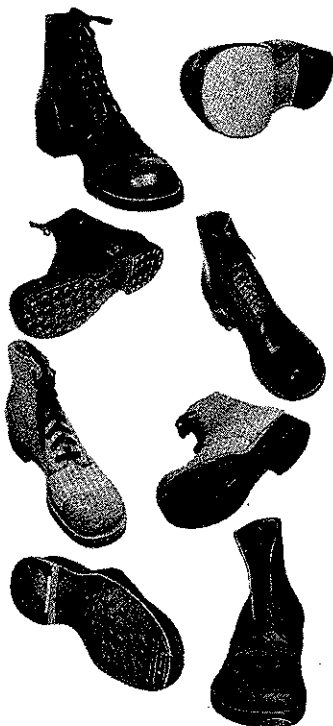

This shoe is made like the shoes, service, with the exception that it carries two (2) full length leather soles and has the forepart hob-riveted and the heel is all leather and either hob-riveted or steel rimmed. This shoe is issued on special requisition only.

SHOES, SERVICE, REVERSE UPPER, COMPOSITION SOLEStock No. **72-S-2350-10—72-S-2357-62**

This shoe is made with flesh out upper leather and crude rubber sole and heel. The shoe has no toe cap. The issue of this shoe is reserved for overseas use and should not be issued in this country.

SHOE, SERVICE, REVERSE UPPER, HOB RIVETEDStock No. **72-S-2363-15—72-S-2369-22**

These shoes are the same as shoes, service, reverse upper, composition sole, except that they have a leather sole and heel and are hob riveted. The issue of this shoe is reserved for overseas use.

**SHOES, GYMNASIUM**Stock No. **37-S-470—37-S-547**

LIMITED STANDARD—To be issued until exhausted.

Shoes, gymnasium, have a low quarter, canvas top and a white molded rubber sole. They are used by the Amphibian Force wherever footing is precarious. The shoes, boat, safety-sole, are slowly replacing the shoes, gymnasium.

BOOTS, JUMPER, PARACHUTEStock No. **72-B-217—72-B-336-20**

A 10" boot having a rubber tap and rubber heel. It is fitted in such a way to provide maximum support for the ankle.

BOOTS, LEATHER, LACE, LEGGING TOPStock No. **72-B-829—72-B-846-72**

This is a boot used by the Cavalry. It is made of welt construction 17" high, blucher pattern with wrap legging top, three (3) straps, $\frac{1}{2}$ bellows tongue, full toe blucher vamp, toe cap (no box), unlined, leather sole with slip tap and one-half ($\frac{1}{2}$) rubber heel. The upper is cut from the best quality, heavy weight, chrome tanned, dress elk sides, Army Russet shade.

BOOTS, LEATHER, LACED, EM

Stock No.

72-B-373—72-B-598-35

LIMITED STANDARD—To be issued until exhausted.

BOOTS, LEATHER, LACED, WATERPROOF

Stock No.

72-B-1000—72-B-1117

LIMITED STANDARD—To be issued until exhausted.

SHOES, LOW QUARTER, TANStock No. **72-S-753-62—72-S-759-87**

A dress type of oxford now provided principally to the Medical Corps. It is not distributed to the regular Enlisted Men.

BOOTS, SKI-MOUNTAIN

LIMITED STANDARD—To be issued until exhausted

Stock No. 72-B-2800-32—72-B-2811-66

A combination boot intended for both skiing and mountain climbing. It is constructed on a last having a rocker bottom in order to facilitate walking or climbing, and the square toes and grooved heels are designed to fit ski bindings.

BOOTS, SKI-MOUNTAIN, WITH RUBBER CLEATED SOLE

Stock No. 72-B-2845-50—72-B-2851-16

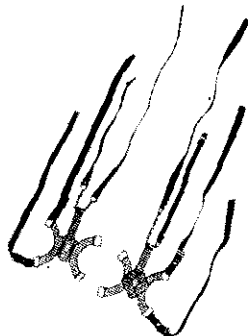

This boot has superseded boots, ski mountain, and boots, ski mountain with tricouni nails. It is similar except that it has a rubber cleated sole in place of a plain leather sole or leather sole with nails.

CREEPERS, ICE

Stock No. 74-C-311

An adjustable, short spiked plate which is attached by straps and buckles to the sole of the shoe and used to give secure footing where icy conditions prevail (used chiefly around airports).

INSOLES, FELT

Stock No. 72-I-550—72-I-580

A pressed felt insole made of cattle hair and wool. They are shipped inside shoe pacs; boots, ski-mountain; boots, blucher, high top; and mukluks. In each instance the insole is cut to the proper shape to fit the boot or shoe. Felt insoles for replacement are shipped in block form and are to be cut by the men in the field to the shape required. The insole is used for insulation and to absorb moisture. It is kept in the boot or shoe only when actually being used. As soon as the footwear is taken off it must be removed and dried.

NAIL, BOOT, MOUNTAIN

Stock No.

42-N-2600 Center

42-N-2606 Edge

42-N-2610 Heel-Plate Size A

42-N-2611 Heel-Plate Size B

LIMITED STANDARD—To be issued until exhausted.

A set of hard steel and tricouni type nails for use on boots, ski-mountain, to get a safe grip on ice, snow, rock, steep grass, gravel, etc. They are used on boots, ski-mountain, where difficult mountainous terrain is likely to be encountered.

GAITER, SKI

Stock No. 72-G-1000—72-G-1004

A short canvas legging used to prevent snow from entering the top of the boot, ski-mountain.

PROTECTORS, SOLE, SKI-BOOT

Stock No. 72-P-10005

A metal protector, screwed and nailed to the edge of the sole of the boot, ski-mountain, where they will be in contact with the side of the bindings, ski, to prevent the leather from softening and wearing at the points of contact.

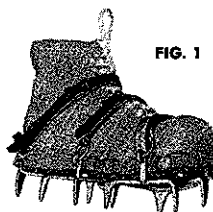

FIG. 1

FIG. 2

CRAMPONS, MOUNTAIN

Stock No. 74-C-310-50

Large size

Stock No. 74-C-310-55

Small size

Figure 1—A steel framework with spikes $1\frac{1}{2}$ inches long used on boots and shoes when steep ice must be climbed. The spikes dig into the ice, give secure footing, and allow the soldier to advance more quietly, faster and with less energy than with any other type of footgear. Crampons may also be used on steep grass slopes. Figure 2—The crampon affixed to the boot, ski-mountain, nailed.

INSOLES, BURLAP

Stock No. 72-I-345—72-I-380

LIMITED STANDARD—To be issued until exhausted.

BOOTS, BLUCHER, HIGH TOP Stock No. 72-B-128-8—72-B-133-18

A boot, 12" in height, constructed in such a manner as to be more waterproof than other types of leather footwear. It is intended for wet, cold areas.

SHOE PAC, LOW Stock No. 72-S-8598—72-S-8620	SHOE PAC, HIGH Stock No. 72-S-8400—72-S-8420	SHOE PAC, 12-INCH Stock No. 72-S-8750—72-S-8770
---	--	---

The shoe pac, low, has a leather top 10 inches high and a rubber foot, whereas the shoe pac, high, has a leather top 16 inches high and a rubber foot. They are used in wet weather and under cold conditions down to 10° F., worn with a removable felt innersole and with two or more pairs of heavy socks.

The shoe pac, 12-inch, is the same as the shoe pac, low, and shoe pac, high, except in the height of the leather top and in the method of attaching the top to the sole. When the stock of the shoe pac, low, and shoe pac, high, is exhausted the shoe pac, 12-inch, will be issued.

OVERSHOES, ARCTIC Stock No. 72-O-275—72-O-295

LIMITED STANDARD—To be issued until exhausted.

The overshoe, Arctic, now being procured by the Quartermaster Corps is known as the four (4) buckle, cloth top type. It is worn over the service shoe and is issued in certain areas in this country and out of this country where snow and cold wet conditions require an extra covering over the service shoe. It may also be used with socks and insoles alone in cold weather. The basis of issue has recently been changed from one (1) pair to every man to one (1) pair to every man in the areas indicated.

OVERSHOES, ARCTIC, ALL RUBBER Stock No. 72-O-398—72-O-422

LIMITED STANDARD—To be issued until exhausted.

BOOTS, MUKLUK Stock No. 72-B-1130—72-B-1132

This is the warmest type of footwear issued and is used in extremely cold climates. It has a bottom made of dry tanned kipskin or buckskin and a fabric top. The boot is permeable allowing perspiration of the feet to evaporate rather than confining it within the boot causing freezing of the feet. It is worn with a burlap or felt innersole and a combination of wool and ski socks. Its principal value is that it is roomy, allowing the use of many pairs of socks without constricting the foot. As it is not waterproof it cannot be used in weather warmer than + 20° F or in wet snow.

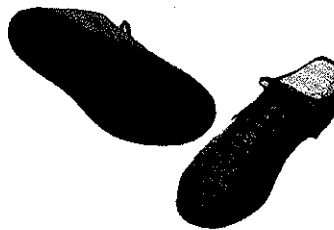

BOOTS, JUNGLE Stock No. 72-B-340-30—72-B-341-60

Boots, jungle, are used under tropical conditions where resistance to the action of jungle conditions is necessary. The regular issue leather shoe will not stand up as well under the constant wet conditions of the tropics. Boots, jungle, are made to provide adequate ventilation and have a fabric upper that may be easily washed and cleaned. The sole is a composition rubber sole similar to a basketball shoe for wearing qualities. This boot will also serve as a mosquito boot.

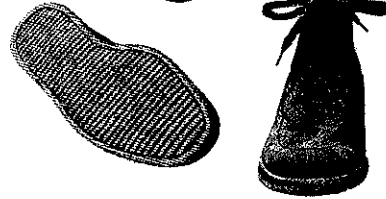

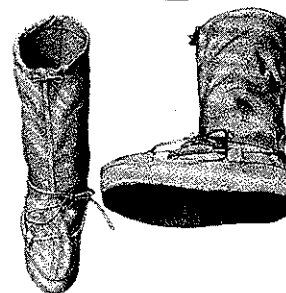

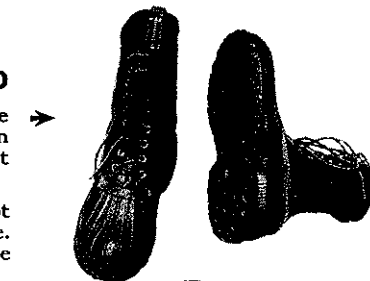

OVERSHOES, BOAT, SAFETY-SOLE Stock No. 72-O-755—72-O-765

This is an all rubber, five (5) buckle shoe worn over regular shoes and used by the Amphibious Forces. The sole is so constructed that it grips well on slippery surfaces.

SHOES, BOAT, SAFETY-SOLE Stock No. 72-S-62-20—72-S-65-30

An oxford type shoe with a canvas top and a sole which grips well on slippery surfaces. It is used by the Amphibious Forces.

SHOES, CLIMBING, ROPE-SOLE Stock No. 72-S-70-25—72-S-70-85

A rope-soled, split leather top shoe, used where high angle rock climbing is necessary and under other conditions which require very good footing on wet rock.

BOOTS AND SHOES

BOOTS, RUBBER KNEE, M-1937

Stock No.
72-B-1261—72-B-1271

The knee boot is an ankle fitting all rubber boot with a laced throat just below the knee. Boots as a rule are used almost entirely by the Engineers.

BOOTS, RUBBER, HIP

Stock No. 72-B-1149—72-B-1168

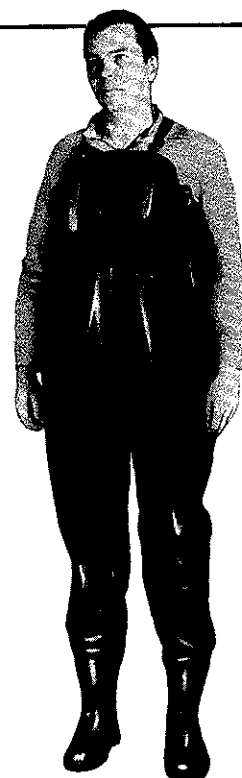

An all rubber boot reaching to the hip and being held up by a strap connected with either a belt or suspenders.

WADERS, OVER-THE-SHOE

Stock No. 72-W-5000—72-W-5020

Waders, over-the-shoe, are a combination of the hip boot and an overall, made entirely of rubber. The waders reach up under the arm pits and across the chest and back and fit reasonably tight to effect a fairly good water seal. The wader is put on over the service shoe, as its title indicates, and is worn by a man unloading boats when establishing a beach head or in deep water construction work.

BOOTS, RUBBER, KNEE, HEAVY

Stock No. 72-B-1194—72-B-1214

LIMITED STANDARD—To be issued until exhausted.

BOOTS, RUBBER, KNEE, LIGHT

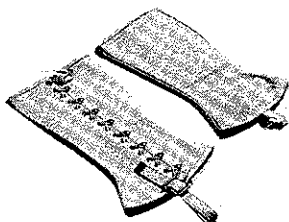

Stock No. 72-B-1240—72-B-1258

LIMITED STANDARD—To be issued until exhausted.

LEGGINGS, CANVAS, M-1938, DISMOUNTED, od

Stock No. 72-L-61883—72-L-61903

This legging is used by all Enlisted Men. It is made of No. 6 duck, measures 12 $\frac{3}{4}$ " in height. It is laced by means of hooks and eyelets; fastened to the service shoe, by means of a Webbing Strap; furnished in four (4) sizes—R1 to R4 in Olive Green Color.

LEGGINGS, CANVAS, M-1938, DISMOUNTED, od, PROTECTIVE

Stock No. 72-L-62027—72-L-62048

This legging is the same as the leggings, canvas, M-1938, dismantled, od, with the exception that it is made protective and issued only at the Port of Embarkation.

SHOES, BALLOON, INSPECTION

Stock No. 72-S-50—72-S-52

Shoes, balloon, inspection, are similar to the window dresser sock. They are made of cotton flannel and no wool in order to avoid static electricity and are used by the Barrage Balloon Repair Crew, worn over the sock without shoes, in order to avoid bruising the fabric of the balloon.

LACES

LACES, BOOT, EM

Stock No. 72-L-40

LACES, BOOT, LEGGING TOP

Stock No. 72-L-43

LACES, BOOT, JUNGLE, UPPER

Stock No. 72-L-42-25

LACES, BOOT, JUNGLE, BOTTOM

Stock No. 72-L-42-15

LACES, BOOT, MUKLUK, 30"

Stock No. 72-L-46-20

LACES, BOOT, MUKLUK, 60"

Stock No. 72-L-46-25

LACES, BOOT, PARACHUTE, JUMPER

Stock No. 72-L-46-50

LACES, BOOT, RUBBER, KNEE, M-1937

Stock No. 72-L-47

LACES, BOOT, SKI-MOUNTAIN, 60"

Stock No. 72-L-47-50

LACES, SHOE, GARRISON, 40"

Stock No. 72-L-76

LIMITED STANDARD—To be issued until exhausted.

LACES, SHOE, GARRISON, 45"

Stock No. 72-L-77

LIMITED STANDARD—To be issued until exhausted.

LACES, SHOE, LOW QUARTER, TAN, 28 $\frac{1}{2}$ "

Stock No. 72-L-80

LACES, SHOE, LOW QUARTER, TAN, 30"

Stock No. 72-L-81

LACES, SHOE, SERVICE, 40"

Stock No. 72-L-85

LACES, SHOE, PAC, 60"

Stock No. 72-L-94

LACES, SHOE, PAC, 72"

Stock No. 72-L-94-35

LACES, SHOE, PAC, HIGH, 84"

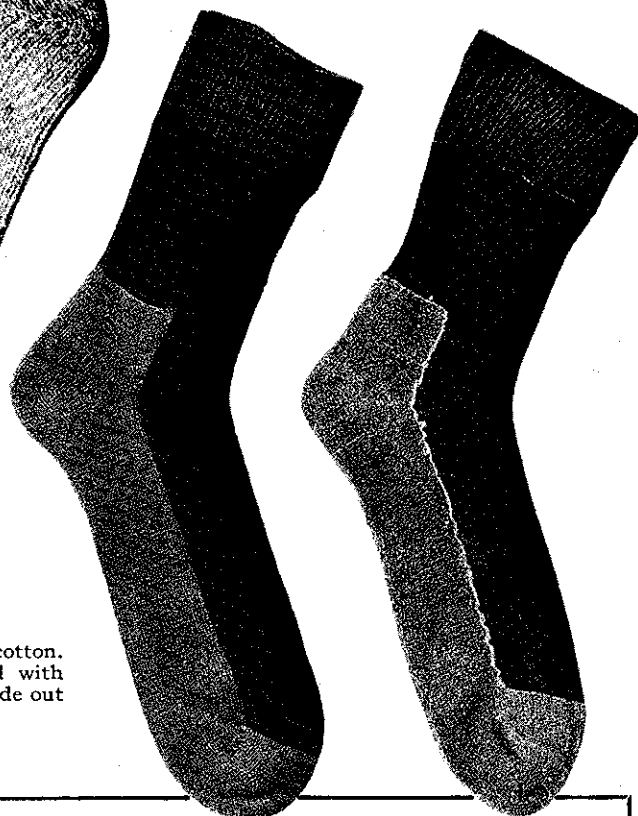

Stock No. 72-L-95

SOCKS, WOOL, SKI

Stock No.

73-S-34380—73-S-34390—Heavy
73-S-34400—73-S-34412—Medium

A heavy weight sock for use with cold weather footgear.

SOCKS, WOOL, CUSHION SOLE

 Stock No. **73-S-31760—73-S-31792—Gray**

 Stock No. **73-S-31820—73-S-31852—od**

Socks, wool, cushion sole, consist of 50% wool and 50% cotton. The heels, toes and soles of the socks are superimposed with reinforced wool. The photo on the right shows the sock inside out and illustrates the cushioned sole.

SOCKS, LIGHT WOOL OR HEAVY WOOL

Socks, light wool or heavy wool are classified as follows:

SOCKS, WOOL, HEAVY, od

 Stock No. **73-S-32172—73-S-32200**
SOCKS, WOOL, HEAVY, WHITE

 Stock No. **73-S-32231—73-S-32256**
SOCKS, WOOL, LIGHT, od

 Stock No. **73-S-32214—73-S-33235**
SOCKS, WOOL, LIGHT, WHITE

 Stock No. **73-S-33266—73-S-33302**
SOCKS, COTTON, TAN

 Stock No. **73-S-23566—73-S-23602**
SOCKS, WOOL, LIGHT, PROTECTIVE, od

 Stock No. **73-S-33708—73-S-33742**
SOCKS, BURLAP OR JUTE

 Stock No. **73-S-25900—73-S-25930**

Socks, burlap or jute, are made of burlap and are used to wear over socks, Arctic, or socks, wool, ski to catch frost in extremely cold regions as they can be easily dried.

SOCKS, WOOL, LIGHT, PROTECTIVE, WHITE

 Stock No. **73-S-33758—73-S-33792**
SOCKS, ARCTIC

 Stock No. **73-S-18505—73-S-18527**

LIMITED STANDARD—To be issued until exhausted.

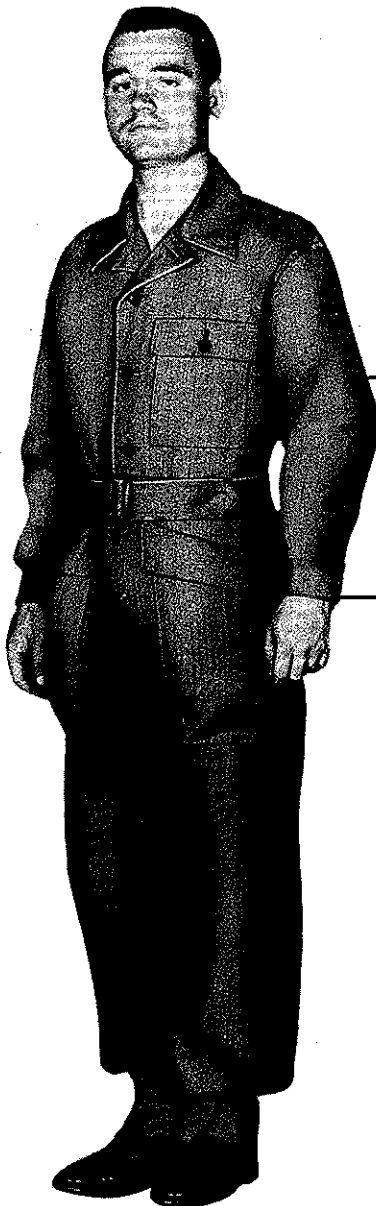

SUIT, ONE-PIECE, JUNGLE

Stock No. 55-S-46010—55-S-46047

LIMITED STANDARD—To be issued until exhausted.

This one-piece, camouflaged uniform is especially developed to give maximum protection against insects and thorns while permitting the wearer to remain as cool as possible. It is provided with internal fabric suspenders that permit the crotch of the uniform to be raised or lowered so that the weight of the cargo pockets can be carried with comfort, suspended from the shoulders. The jungle suit has large cargo pockets, with flaps held down by stout friction snaps.

The camouflaged patterns, green on the outside and tan on the inside, permit the garment to be reversed so that the troops may have a camouflaged uniform suitable for action on beaches or sun-baked areas as well as in normal, green jungle.

SUIT, WORK, ONE-PIECE, HERRINGBONE TWILL, od

Stock No. 55-S-49846-30—55-S-49888

A one-piece work suit similar to the commercial work garment.

SUIT, ONE-PIECE, HERRINGBONE TWILL, SPECIAL

Stock No. 55-S-45841—55-S-45890

This garment is the regular issue modified to permit special constructed front facings and cuff.

SUIT, PROTECTIVE, ONE-PIECE, IMPERMEABLE

Stock No. 55-S-46194—55-S-46200

SUIT, ONE-PIECE, HERRINGBONE TWILL, PROTECTIVE

Stock No. 55-S-45653—55-S-45729

SUIT, COMBAT, WINTER

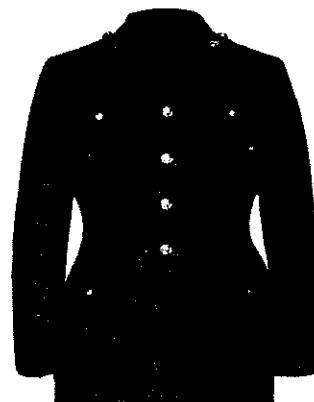

For stock numbers and descriptions see trousers, combat, winter; jacket, combat, winter; and helmet, combat, winter, respectively.

**JACKET, HERRINGBONE TWILL,
CAMOUFLAGE**

Stock No. 55-J-497-10—55-J-497-95

This jacket is made of herringbone twill with a camouflage pattern. It has composition buttons instead of metal and special sleeve closure.

COAT, WOOL, SERGE, od, 18 oz

Stock No. 55-C-69299—55-C-69510

A short, wool blouse for winter dress wear.

JACKET, FIELD, od

**Stock No.
55-J-200—55-J-304**

A short combat jacket of wind-proof, water repellent cotton poplin with flannel lining and with button and zipper closure.

**JACKET, HERRINGBONE
Twill**

**Stock No.
55-J-414—55-J-494**

Jacket, herringbone twill, is a short, unlined, combat and fatigue jacket of tough cotton twill.

JUMPER, DUNGAREE

**Stock No.
55-J-670—55-J-682**

Jumper, dungaree, is made of blue denim, button front, with two lower front pockets and is used by the Mine Planters.

JACKET, HERRINGBONE TWILL, SPECIAL

Stock No. 55-J-532-30—55-J-542-30

This jacket is the jacket, herringbone twill, with an overlapping front flap.

**JACKET, HERRINGBONE TWILL,
PROTECTIVE**

Stock No. 55-J-520-30—55-J-530-30

JACKET, JUNGLE-CLOTH

Stock No. 55-J-543-36—55-J-543-50

A hip length jacket of heavy wool serge to provide wind-proof, water-repellent protection against cold rain and spray. It is used by Mine Planters and Amphibian Engineers.

JACKET, RAIN

Stock No. 72-J-50—72-J-56

LIMITED STANDARD—To be issued until exhausted.

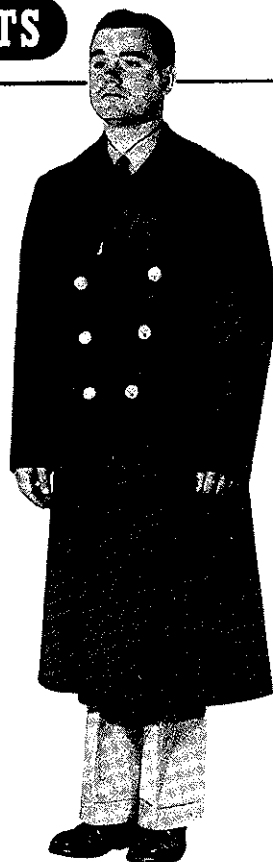

COATS AND JACKETS

**COAT, PARACHUTE
JUMPER**

**Stock No. 55-C-35808—
55-C-35862**

A short coat of windproof, water repellent cotton cloth with large pockets at top and sides.

**OVERCOAT, WOOL, MELTON,
od, ROLL COLLAR, 32 oz
Stock No. 55-0-8876—55-0-9140**

A full length overcoat of heavy weight wool cloth.

RAINCOATS

**RAINCOAT, OIL TREATED,
DISMOUNTED**

Stock No. 72-R-1115—72-R-1130

**RAINCOAT, OIL TREATED,
MOUNTED**

Stock No. 72-R-1850—72-R-1860

**RAINCOAT, RUBBERIZED, M-1938,
DISMOUNTED**

Stock No. 72-R-3435—72-R-3460

**RAINCOAT, RUBBERIZED, M-1938,
MOUNTED**

Stock No. 72-R-3590—72-R-3610

**RAINCOAT, RUBBERIZED, SINGLE
TEXTURE, od, DISMOUNTED**

Stock No. 72-R-3820—72-R-3840

**RAINCOAT, RUBBERIZED, SINGLE
TEXTURE, od, MOUNTED**

Stock No. 72-R-3910—72-R-3920

**RAINCOAT, SYNTHETIC RESIN
COATED, od, DISMOUNTED**

Stock No. 72-R-4050—72-R-4056

**RAINCOAT, SYNTHETIC RESIN
COATED, od, MOUNTED**

Stock No. 72-R-4060—72-R-4064

The oil treated raincoat should not be used in warm climate.

**JACKET, FIELD, od,
ARCTIC
Stock No.**

55-J-330—55-J-371

A hip length jacket of windproof, water-repellent cotton cloth, with wool kersey lining. The jacket is designed to fit over sweaters or other warm garments for additional warmth.

**JACKET, COMBAT, WINTER
Stock No.**

55-J-100—55-J-130

A windproof, water-repellent cotton jacket with wool kersey lining and knitted wool waistband, cuffs and neck.

**PARKA, REVERSIBLE, SKI,
FUR TRIMMED**

Stock No.

55-P-4903—55-P-4909

This parka consists of two layers of windproof, water-repellent cotton poplin, one layer white and one layer od. It is fully reversible and can be used with either the white or od side out. It has button closure and fur trimmed hood.

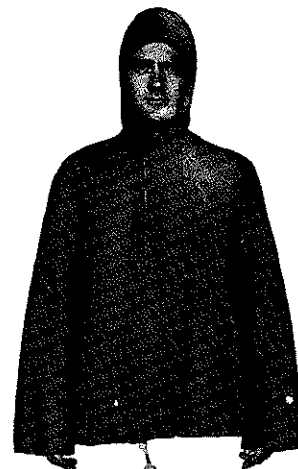

COAT, MACKINAW, od

Stock No.

55-C-33090—55-C-33190

A short top coat of heavy weight poplin with convertible collar.

PARKA, WET WEATHER

Stock No. 72-P-2510—72-P-2525

Parka, wet weather, is made from waterproof, two ply laminated material combined with a synthetic resin.

**OVERCOAT, PARKA TYPE,
SHEEPSKIN LINED**

Stock No.

55-O-3133—55-O-3140

LIMITED STANDARD—To be issued until exhausted.

Overcoat, parka type, sheepskin lined, is a full length overcoat of wind resistant, water repellent cotton cloth with sheepskin lining set in. There is also a permanently attached hood of the same material for additional warmth.

**OVERCOAT, PARKA TYPE,
ALPACA LINED**

Stock No.

55-O-3131-36—55-O-3131-50

LIMITED STANDARD—To be issued until exhausted.

Overcoat, parka type, alpaca lined, is the same as the overcoat, parka type, sheepskin lined, except that it has the alpaca lining.

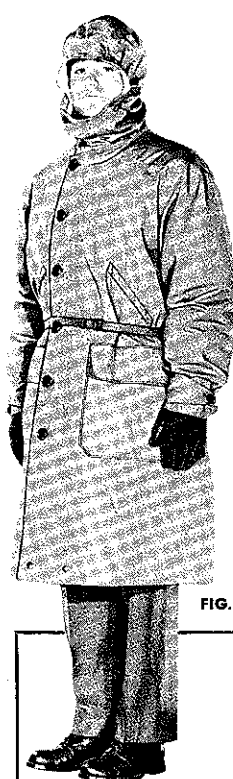

FIG. 1

FIG. 2

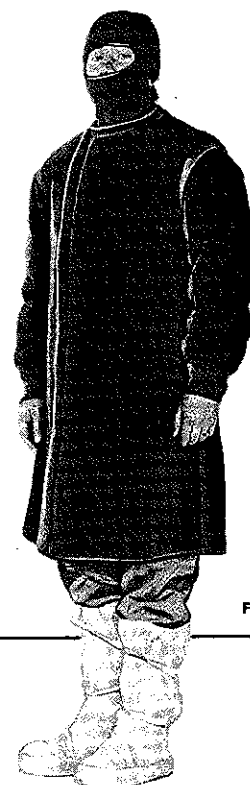

FIG. 3

OVERCOAT, PARKA TYPE, REVERSIBLE WITH PILE LINER

Stock No. 55-O-3132-36—55-O-3132-46

Figure 1
The overcoat fastened

Figure 2—The outer
shell and the pile liner

Figure 3
The pile liner by itself

A two piece garment consisting of an outer shell and an inner pile liner. The outer shell is reversible and is made of two layers (one white, the other od) of windproof, water repellent cotton poplin. The pile liner is separate from the outer shell to facilitate drying and adjustment to fit variation in temperatures.

COATS AND JACKETS

JACKET, MOUNTAIN
Stock No. 55-J-544-25—55-J-545-90

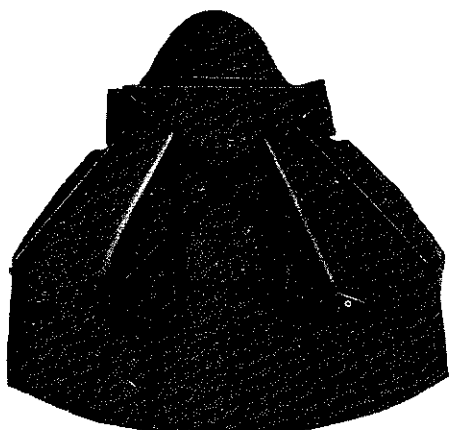

Figure 1
Inside view

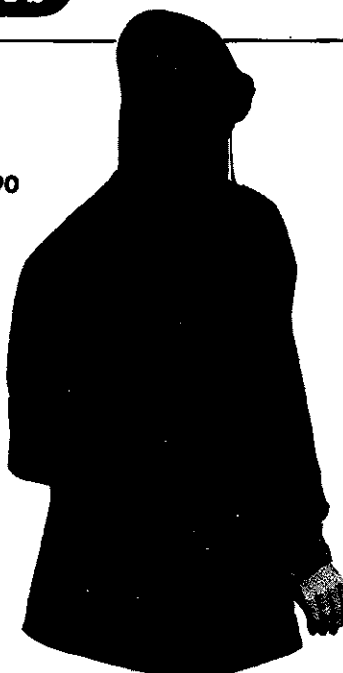

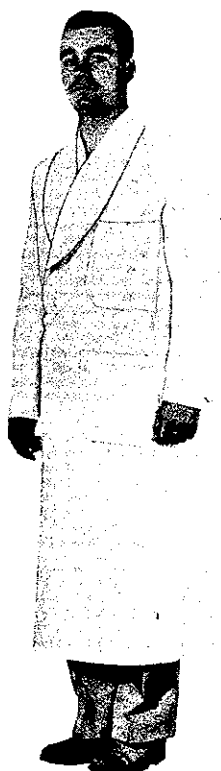

Figure 2—Back view
with Protective Hood Raised

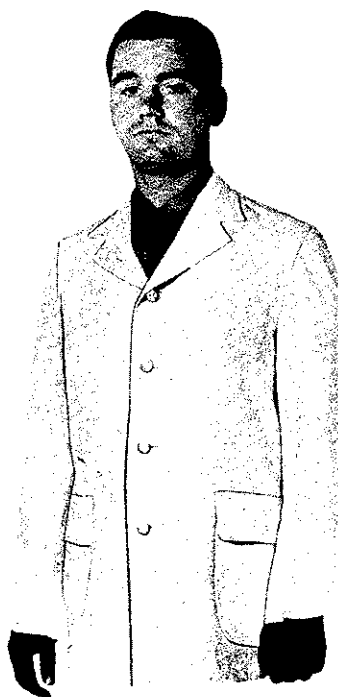

Figure 3—Front view
with Protective Hood Raised

A windproof, water repellent jacket for Mountain Troops. The hood can be folded underneath the collar. There are four (4) large roomy pockets in the front and a large cargo pocket extending across the back, similar to the type found in many hunting jackets. The large number of pockets makes it possible to carry many items when it is not desired to wear the rucksack. The suspenders attached inside the jacket help to support and distribute the weights in the cargo pockets.

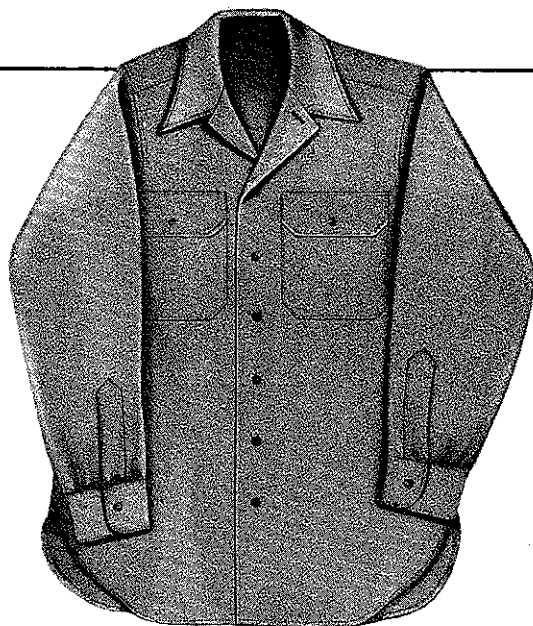

FROCK, BUTCHER'S
Stock No. 55-F-9050—55-F-9130

**COAT, BAKER'S AND COOK'S,
WHITE**
Stock No. 55-C-7376—55-C-7454

OR RIFLE**

Stock No. 74-P-142-35

The pocket is made of duck and is designed to carry two (2) clips of ammunition for the M-1 rifle or carbine. It has a loop on the back, through which the pistol belt is inserted.

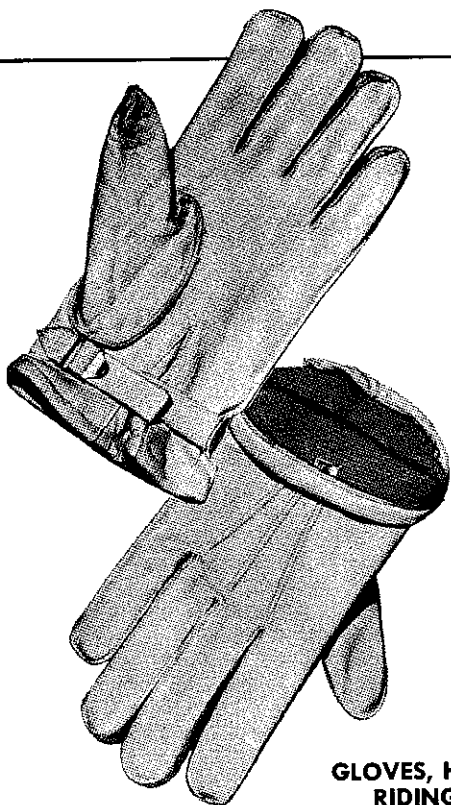

SUSPENDERS, TROUSERS
Stock No. 73-S-73000

Suspenders, trousers, are made of od webbing and are worn with trousers, mountain; trousers, parachute jumper, or any other type of trousers with which suspenders are used.

SUSPENDERS, BELT, M-1936
Stock No. 74-S-389

Suspenders, belt, M-1936, can be used to support the various types of ammunition belts and also to carry the bag, canvas, field, od.

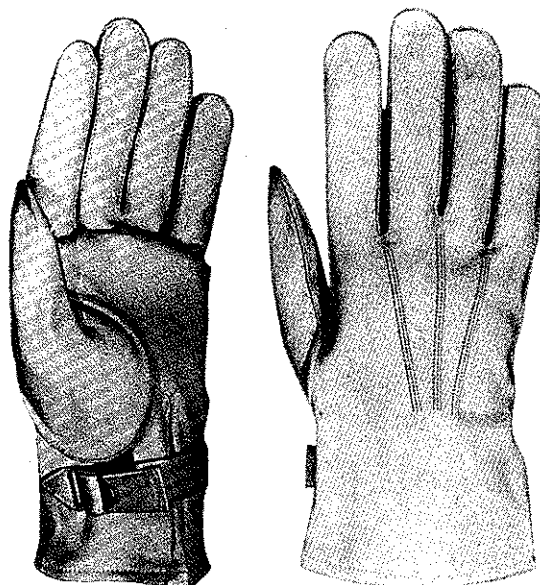

**GLOVES, HORSEHIDE,
RIDING, LINED**

Stock No. 73-G-21398—73-G-21421

LIMITED STANDARD—To be issued until exhausted.

GLOVES, HORSEHIDE, RIDING, UNLINED

Stock No. 73-G-22010—73-G-22050

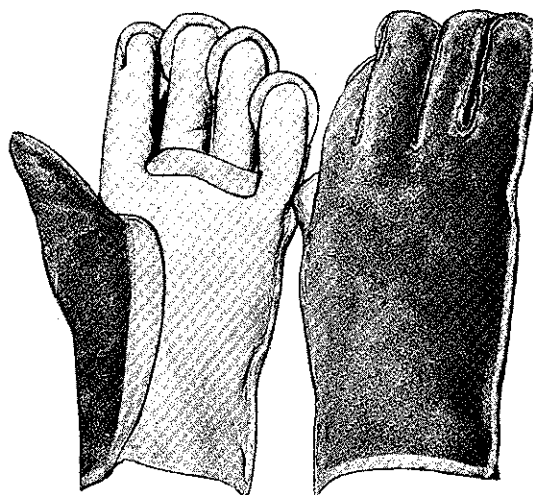

A sturdy general use glove. Do not use for heavy work for which gloves, leather, heavy, will be furnished. Can be washed in soap and water but not dried near open flames or heat or on radiators.

GLOVES, WOOL, od, LEATHER PALM

Stock No. 73-G-43850—73-G-43885

A glove for general wear, but not intended for heavy labor for which gloves, leather, heavy, will be furnished. When wet, do not dry near open flames or intense heat. Do not dry on radiators. They should be fitted comfortably to the hand so as not to restrict any movement or to slide off the hand.

GLOVES, LEATHER, HEAVY

Stock No. 73-G-30500—73-G-30515

A heavy duty work glove designed for rugged use such as construction, loading and unloading, handling heavy objects, etc. Must be worn for all types of labor that would destroy lighter weight gloves. Do not dry near open flames, intense heat or on radiators. This glove should be issued *only* to those individuals who do heavy work.

GLOVES, COTTON, PROTECTIVE, od

Stock No. 73-G-12330

Gloves, cotton, protective, od, are protective gloves that appear small in size when first issued, but that can be stretched to fit any size hand by flexing the fabric and forcing the hand to overcome the temporary shrinkage.

FIG. 1

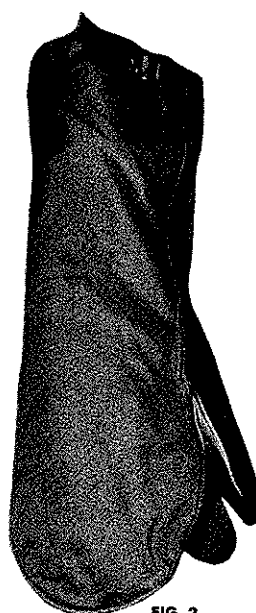

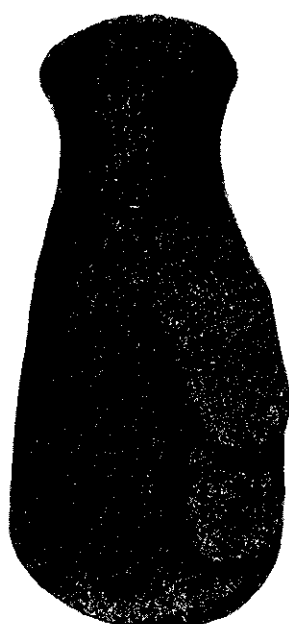

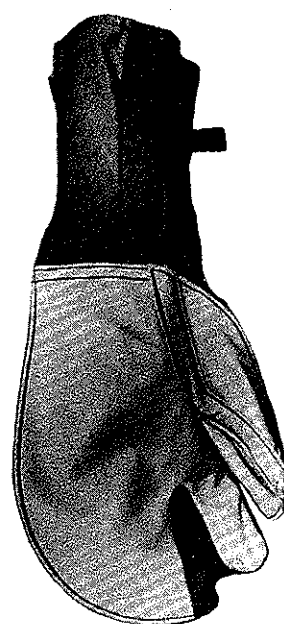

FIG. 2

MITTENS, INSERT, TRIGGER FINGER, Stock No. 73-M-2705—73-M-2720

MITTENS, SHELL, TRIGGER FINGER, Stock No. 73-M-3610

Fig. 1—A mitten worn inside the mittens, shell, trigger finger. Under very cold conditions it can be worn over the wristlet, knit. It is never used alone.

Fig. 2—A windproof poplin, leather palmed mitt for use with the mitten, insert, trigger finger, in low temperatures. The superimposed trigger finger permits use of a rifle without exposing the trigger finger to the cold. Ordinarily the fingers will be kept together in the body of the mitt and the trigger finger used only when necessary. The trigger finger may be turned inside out and tucked in to keep it out of the way.

NOTE—The design of these items has been changed as illustrated below and when the stock is exhausted, mittens, insert, trigger finger, type I, and mittens, shell, trigger finger, type I, will be issued.

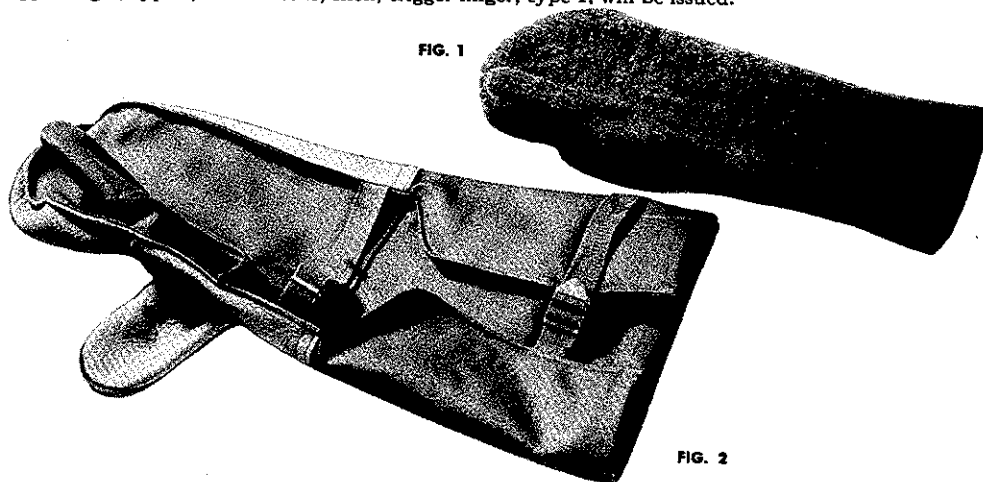

FIG. 1

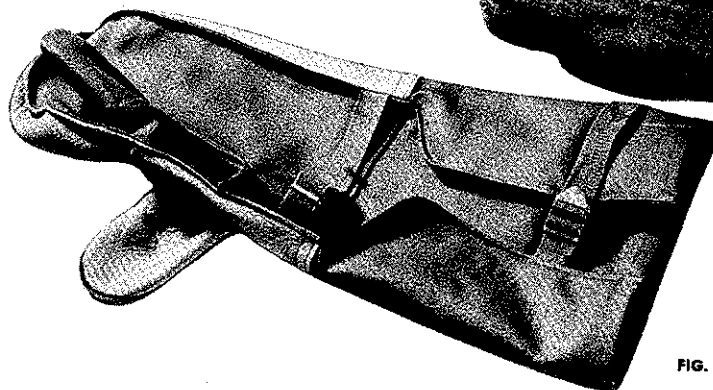

FIG. 2

MITTENS, INSERT, TRIGGER FINGER, TYPE I, Stock No. 73-M-2735—73-M-2740

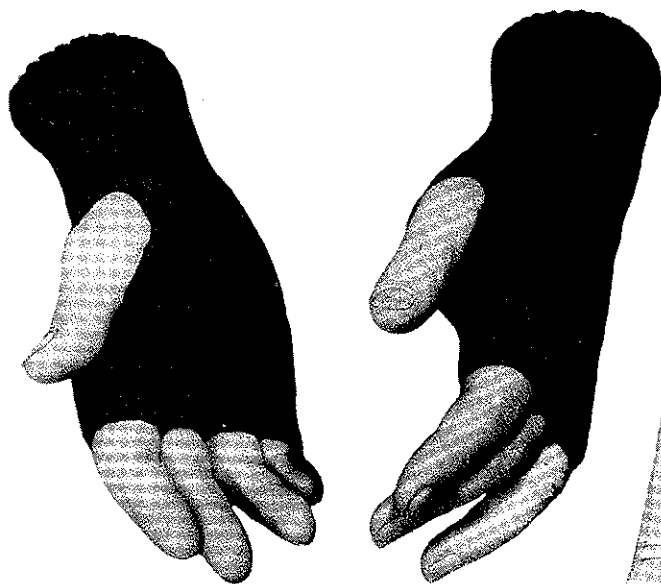

MITTENS, SHELL, TRIGGER FINGER, TYPE I, Stock No. 73-M-3620

Fig. 1—This mitten is worn inside the mittens, shell, trigger finger, type I. Under very cold conditions it can be worn over the wristlet knit. It is never worn alone.

Fig. 2—This mitten is similar to the mitten, shell, trigger finger, except that the trigger finger is on the back of the mitten.

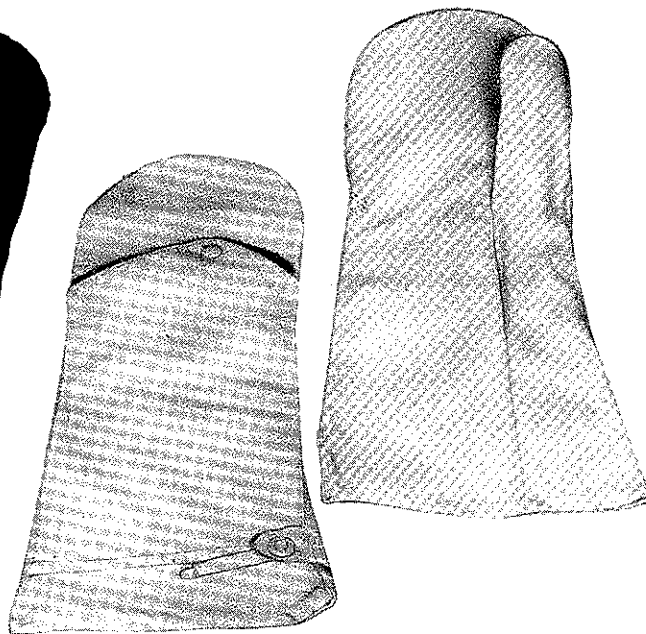

MITTENS, SHELL, TRIGGER FINGER, WATERPROOF, Stock No. 73-M-3640

These mittens, shell, are the same as the mittens, shell, trigger-finger, except that they are dipped in synthetic rubber and are issued to the Amphibian Engineer Brigade.

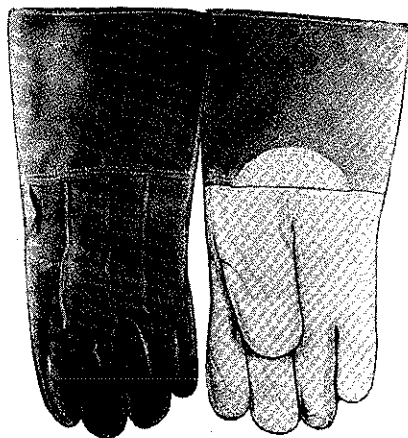

WRISTLET, KNIT—Stock No. 73-W-10000

A fingerless glove, joined between the middle and third fingers, for use inside any cold weather hand covering to insure a good closure at the wrist. It is also useful for delicate work in cold weather when the fingers must be free but the rest of the hand needs protection.

MITTENS, OVER, WHITE—Stock No. 73-M-3250

A camouflaged white mitten to be worn over the mittens, insert, trigger finger, and the mittens, insert, trigger finger, type 1, when operations on snow require complete camouflage. Since it must be kept clean, it is worn only when needed for camouflage.

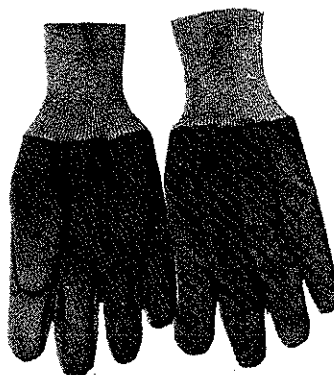

GAUNTLETS, BARBED-WIRE Stock No. 73-G-2050

Gauntlets, barbed-wire, are designed for handling barbed wire. They are not suitable for any other use. Do not dry near open flames or heat or on radiators.

GLOVES, COTTON, PROTECTIVE, UNBLEACHED Stock No. 73-G-12335

GLOVES, COTTON, WHITE Stock No. 73-G-12338— 73-G-12559

GLOVES, MOSQUITO Stock No. 73-G-35000

Gloves, mosquito, will protect the hands from mosquitoes. They can be used as a work glove in the Tropics or under conditions where gloves, leather, heavy, are not suitable. When wet, dry near stove or any available heat but do not burn.

MITTENS, ASBESTOS, M-1942 Stock No. 37-M-394

Mittens, asbestos, M-1942, are designed for protection when handling hot metal or similar conditions. Will enable wearer to change gun barrels that are heated up to about 800°F. When the mittens are wet, such work must be done quickly as the mittens lose about 25% of their protective value. They are also used by bakers' mechanics for changing ovens.

GLOVES, PROTECTIVE, IMPERMEABLE Stock No. 73-G-19660—73-G-19690

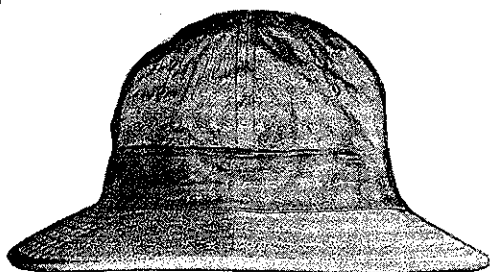

A special rubber glove for protective purposes only.

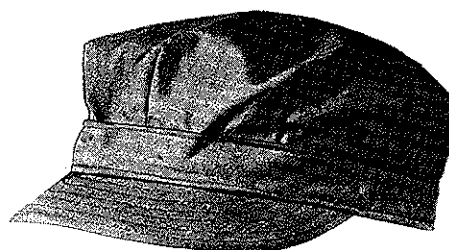

CAP, GARRISON, KHAKI
Stock No. 73-C-17996—73-C-18026
The cotton summer cap issued to all troops.

CAP, GARRISON, od
Stock No. 73-C-18168—73-C-18196
The winter cap, similar in design to cap, garrison, khaki.

HAT, HERRINGBONE TWILL
Stock No. 73-H-42308—73-H-42340
LIMITED STANDARD—To be issued until exhausted.
A soft cotton hat with a broad stiff brim worn with jacket and trousers, herringbone twill.

CAP, HERRINGBONE TWILL
Stock No. 73-C-25605—73-C-25639
A close fitting, cotton cap with visor issued to Armored Forces only.

BAG, FOOD, WATERPROOF, JUNGLE

Stock No. 74-B-54-75
A synthetic resin coated fabric, waterproof bag about 12 inches long used for carrying food, which must be kept dry.

BAG, BARRACK

Stock No. 74-B-50

(illustrated)

BAG, BARRACK, od

Stock No. 74-B-50-10

BAG, BARRACK, od,

WATER, REPELLENT

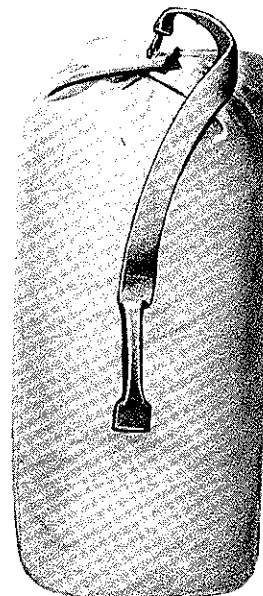

Stock No. 74-B-50-25

Bag, barrack, is used for carrying clothes and laundry. For carrying of clothing and equipment by troops going overseas it is intended to replace the bag, barrack, with the bag, duffel, although it will still serve as a laundry bag where the bag, duffel, is issued.

BAG, CLOTHING, WATERPROOF

Stock No. 74-B-54-50

A waterproof bag used in conjunction with the pack, jungle; bag, barrack; or bag, duffel, and made of lightweight, rubberized fabric in cylindrical form almost as large as the main pouch of the jungle pack, and provided to keep dry the sleeping equipment, extra clothing and food sacks of the soldier, especially on amphibious or jungle operations. This waterproof bag can be readily closed by tying the string, connected near the mouth of the bag, securely around the folded mouth.

BAG, DUFFEL

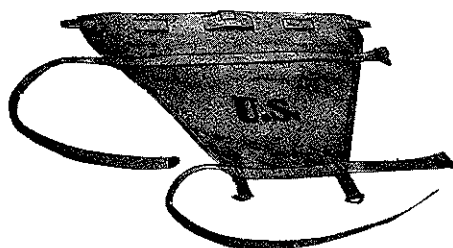

Stock No. 74-B-54-55

The bag, duffel, has been developed as a replacement for the bag, barrack, for troops sent overseas. It is a more durable container of larger capacity and greater ease of carrying and although padlocks will not be issued it can be locked if necessary.

HAVERSACK, M-1928
Stock No. 74-H-93

Haversack, M-1928, is a field pack into which the enlisted man's individual equipment is rolled. It is provided with shoulder straps and has attaching tabs for the bayonet and intrenching tools. The carrier, pack, is used to increase its carrying capacity when necessary to carry a full pack.

CARRIER, PACK, M-1928
Stock No. 74-C-147

Used by individuals to carry individual equipment and articles of personal clothing while on the march. It is used only by the foot soldiers and fastens on to the bottom of the haversack.

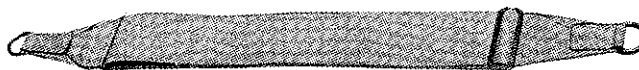

PACK, JUNGLE
Stock No. 74-P-15

Pack, jungle, is a rain-proof pack which has a simple closed pouch of adequate capacity for sizeable loads, and a rain-proof flap covering the pouch. The top of the pouch is drawn together by means of a cord running through grommets, this cord being secured by tying a simple slip knot with the drawn-up end of the cord looped over the part of the cord farthest from the wearer's back. On top of this rain-proof flap is stitched a small rain-proof zipper-opening pouch for canteen, medical kit and other small articles that should be readily accessible. Straps may be tightened to reduce the size of the pack.

RUCKSACK
Stock No. 74-R-350

A large capacity, carrying sack mounted on a tubular steel frame. The design is similar to the well-known Bergans type rucksack. The weight is distributed low around the hips, and the belly strap prevents swinging of the rucksack when in motion. The sack is large enough to carry all the Mountain Trooper needs for short winter patrols. With the sack removed the two frames can be made into an emergency sled using two pairs of skis, four pairs of adaptors, ski, and four bands, contraction.

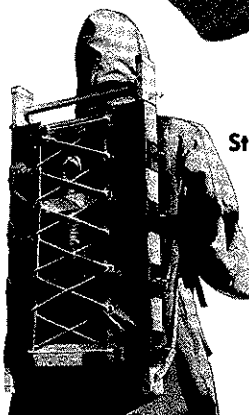

STRAP, CARRYING, od, BAG, CANVAS, FIELD
Stock No. 74-S-333

A strap used to carry the bag, canvas, field, od, M-1936, the bag, ammunition, and the case, canvas, dispatch.

BAG, CANVAS, FIELD, od, M-1936
Stock No. 74-B-53

A small canvas bag to carry personal equipment in the field which can be worn over the shoulder when using strap, carrying, od, bag, canvas, field, or on the back using suspenders, belt.

PACKBOARD
Stock No. 74-P-25

Figure 2—Packboard strapped on

A canvas and wooden carrying frame for transporting heavy or awkward loads by man power. The load lashed to the back of the board can be so distributed that a heavy load may be carried with relative ease. Unlike the rucksack or field pack this carrying frame permits the center of gravity of the load to be set at any desired point, occasionally almost as high as the shoulders.

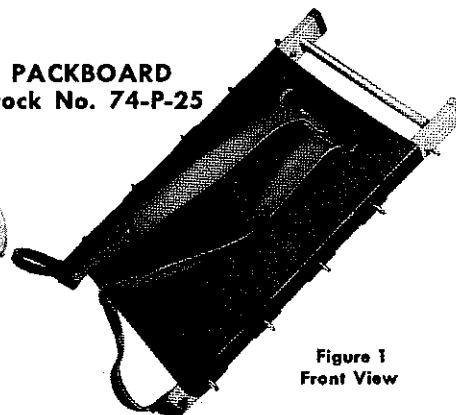

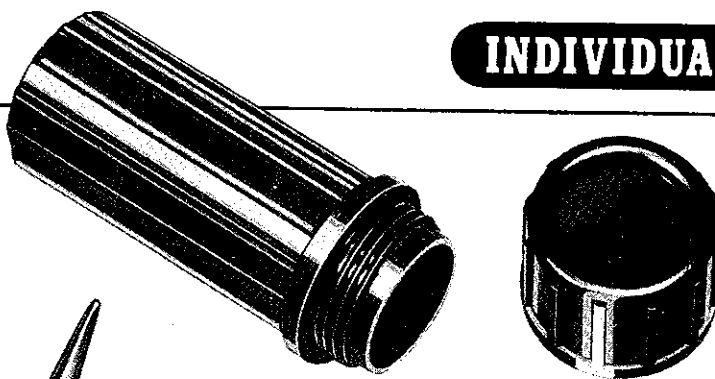

Figure 1
Front View

BOX, MATCH, WATERPROOF

Stock No. 74-B-788-40

A waterproof match box made of plastic for an emergency supply of matches. It is fitted with a sparking bar at the bottom, along which a knife point can be scratched to produce a hot spark for making a fire when there are no matches left.

BOX, MATCH, WATERPROOF, WITH COMPASS

Stock No. 74-B-788-50

LIMITED STANDARD—To be issued until exhausted.

KNIFE, MOUNTAIN

Stock No. 74-K-80

A pocket knife designed with two cutting blades—one a clipped blade used for culinary purposes and the other a sheep foot blade used to work on the tough hickory from which skis are made. The can opener is designed so that it will open any type of can whether paper or metal, and the leather punch is employed for use with various items of leather. The recessed head screwdriver blade fits any Phillip's head screw up to size 5.

KNIFE, POCKET, M-2

Stock No. 74-K-70

LIMITED STANDARD—To be issued until exhausted.

This is a special knife used by the parachutist to cut shroud lines or any other entanglements. Its main feature is a blade which opens automatically when a button on the knife's side is pressed.

GOGGLES, M-1943

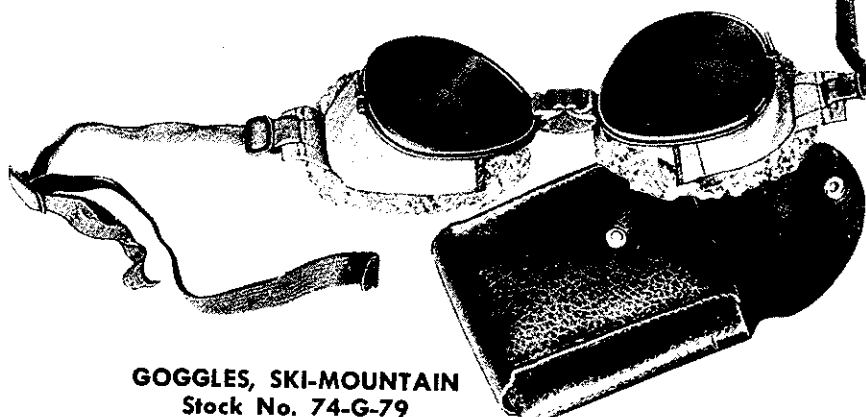

Stock No. 74-G-76-25—74-G-76-45

These goggles have plastic lenses of three shades:

Stock No. 74-G-76-26 Clear lenses used to keep dust out of the eyes.

Stock No. 74-G-76-38 Green tinted lenses used to keep dust out of the eyes and to protect them from glare.

Stock No. 74-G-76-45 Red tinted lenses used to keep dust out of the eyes and for following the flight of tracer bullets.

GOGGLES, SKI-MOUNTAIN

Stock No. 74-G-79

A goggle provided with slits in top and bottom of eye cup to reduce fogging and equipped with ground and polished glass lenses, green tinted to filter out ultra-violet, infra-red and excessive light rays, for use on snow surfaces to prevent snow blindness.

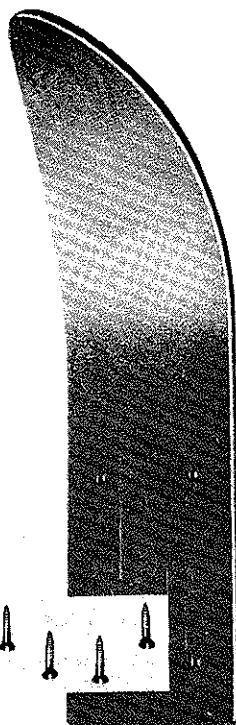

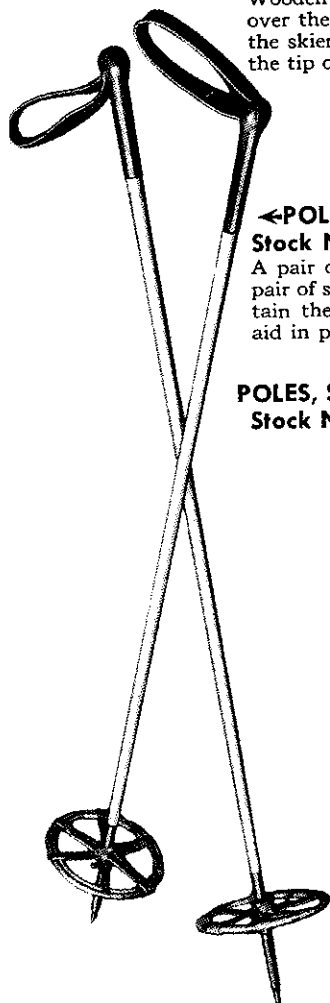

TIP, SKI, EMERGENCY, REPAIR Stock No. 74-T-150

Wooden tip to be clamped or screwed over the end of a broken ski to permit the skier to travel after he has broken the tip of his ski. ➔

←POLES, SKI, STEEL (TYPE II) Stock No. 74-P-221—74-P-224

A pair of ski poles is issued with each pair of skis as a means of helping maintain the balance of the soldier and to aid in pushing forward.

POLES, SKI (LAMINATED, TYPE I) Stock No. 74-P-188—74-P-216

STRAP, SKI, SAFETY Stock No. 74-S-360-5

A short strap used to fasten the ski binding loosely to the boot, ski-mountain. This prevents the ski from being lost down a steep hill if a fall causes the boot to come out of the binding.

BINDING, SKI Stock No. 74-B-298

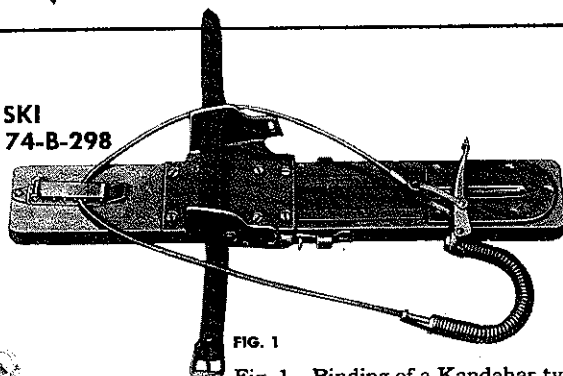

FIG. 1

Fig. 1—Binding of a Kandahar type used to hold the boot firmly to the ski.

Fig. 2—The binding in use.

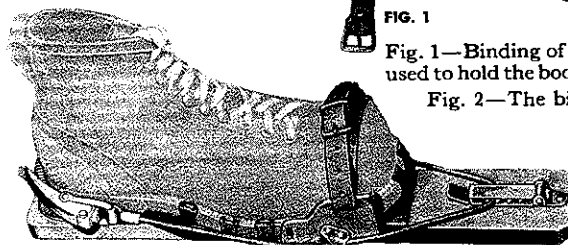

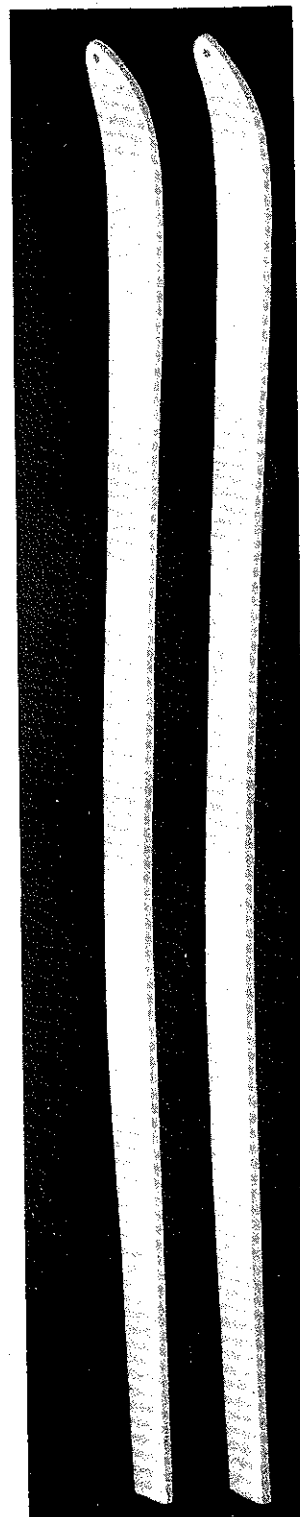

FIG. 2

SKIS

Stock No. 74-S-173—74-S-174

A hickory, steel-edged ski for all-round winter use.

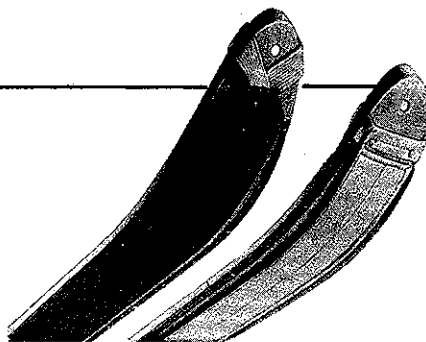

Fig. 2—Climbers Fastened on the Tip of the Skis

Stock No. 74-C-229-10

Climbers, ski, mountain, are strips of Mohair fabric worn on the bottom of skis to prevent back sliding, when climbing steep snow slopes. The climbers are held to the skis by non-freezing, bucklet straps, which can be removed while wearing gloves. Both the white and brown models may be issued at the present time, but the brown has been superseded by the white.

CLIMBERS, SKI, MOHAIR

Stock No. 74-C-229-15

Stock No. 74-C-229-20

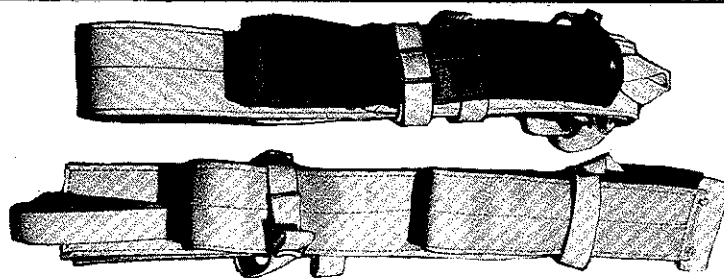

Fig. 1—Brown and White Models

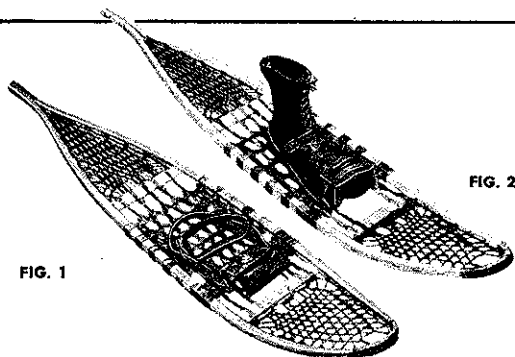

FIG. 1

SNOWSHOES, TRAIL, 10" x 58"

Stock No. 74-S-310

BINDING, SNOWSHOE, TRAIL

Stock No. 74-B-306

A standard type snowshoe used especially in areas free from brush and other obstructions. Both the snowshoe, bearpaw, and the snowshoe, trail, can generally be used interchangeably.

Fig. 1—The use of the binding

Fig. 2—A shoe pac, low, fitted to the binding

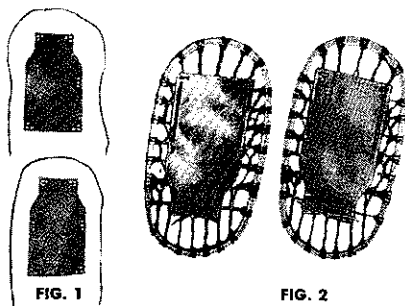

FIG. 1

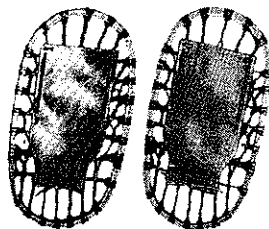

FIG. 2

PADS, SNOWSHOE, MOUNTAIN

Stock No. 74-P-60

Fig. 1—Pads and Laces for Snowshoe

Fig. 2—Application of Pad to Snowshoe, Emergency

Pad, snowshoe, is a pad of hard rawhide to be laced to the webbing of the snowshoe when it is used with nailed boots with hard soles.

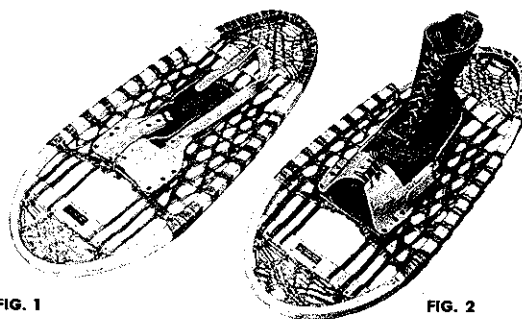

FIG. 1

SNOWSHOES, BEARPAW, 13" x 28"

Stock No. 74-S-301-50

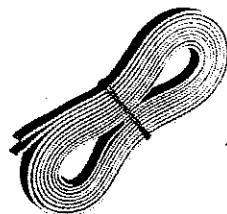

BINDING, SNOWSHOE, MT.

Stock No. 74-B-305

Snowshoe, bearpaw, is a standard type shoe of particular value in area where there is a great deal of brush and other obstructions on the ground, or in steep broken terrain. Either the shoe pac or mukluk is worn. The nailed boot, ski-mountain, can also be worn with the addition of a pad to protect the rawhide from being cut.

Fig. 1—The binding attached to the snowshoe

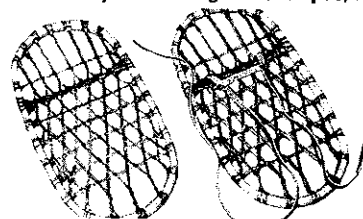

Fig. 2—The shoe attached by the binding is a shoe pac, low

BINDING, SNOWSHOE, EMERGENCY

Stock No. 74-B-303

Two rawhide thongs, 55-inches long, for use in an emergency as a binding for skis or snowshoes and for any other purposes where a strong rawhide lashing is needed to effect temporary repairs to equipment.

SNOWSHOES, EMERGENCY, 10 1/2" x 20"

Stock No. 74-S-309

A small size, extremely light snowshoe for use of troops operating in deep snow where skis cannot always be used, as in actual combat. Normally for footwear, either the shoe pac or the boot, mukluk, is worn. The nailed boot, ski-mountain, can also be worn with the addition of a pad to protect the rawhide from being cut. The snowshoe on the right is shown with the binding, snowshoe, emergency, which is used as the binding for the snowshoe.

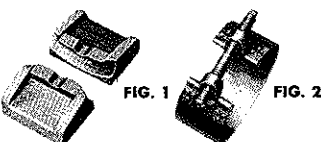

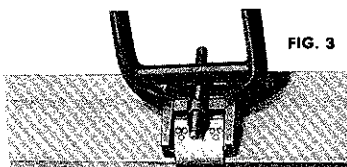

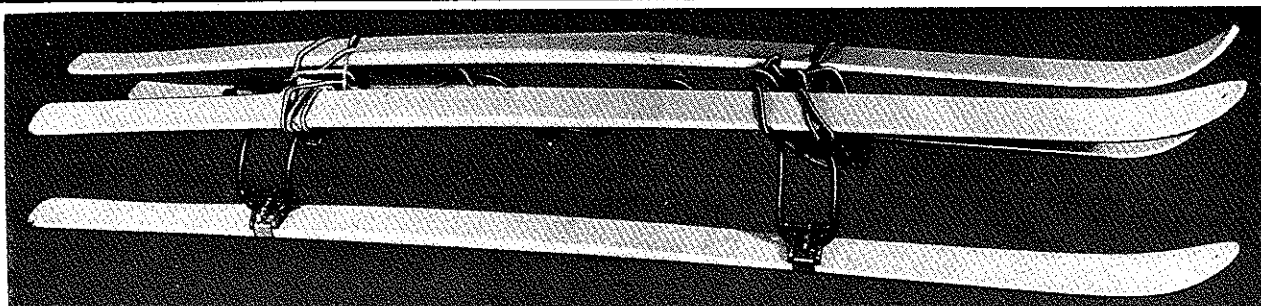

FIG. 4

ADAPTORS, SKI Stock No. 74-A-25 BAND, CONTRACTION Stock No. 41-B-46

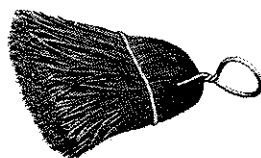

Fig. 1—Adaptors, ski, are a set of aluminum blocks.

Fig. 2—Band, contraction, is a broad steel band.

Fig. 3—The adaptors, ski, and band, contraction, attached to a ski.

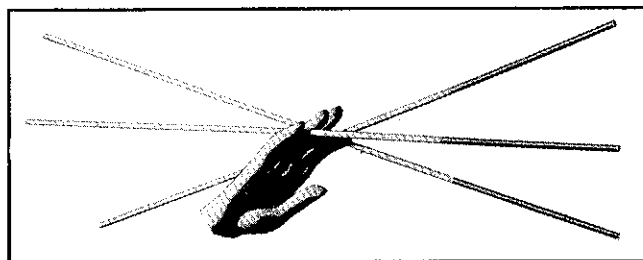

Fig. 4—An emergency sled made from the sack removed from the rucksack, the two frames, two pairs of skis, four pairs of adaptors, ski, and four bands, contraction. Upon this emergency sled an injured soldier can be evacuated, or supplies moved forward.

The bands, contraction, can also be used to clamp the tip of a broken ski onto the balance of the ski, permitting the skier to travel after he has broken his ski tip.

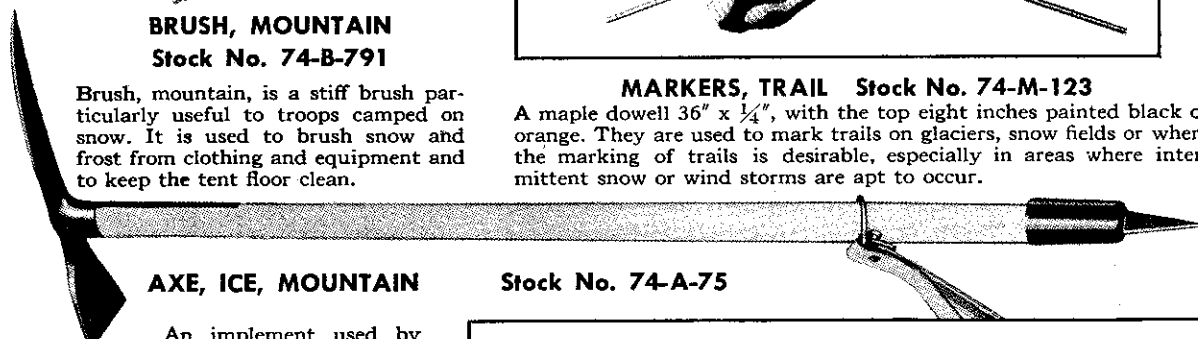

BRUSH, MOUNTAIN Stock No. 74-B-791

Brush, mountain, is a stiff brush particularly useful to troops camped on snow. It is used to brush snow and frost from clothing and equipment and to keep the tent floor clean.

MARKERS, TRAIL Stock No. 74-M-123

A maple dowel 36" x 1/4", with the top eight inches painted black or orange. They are used to mark trails on glaciers, snow fields or where the marking of trails is desirable, especially in areas where intermittent snow or wind storms are apt to occur.

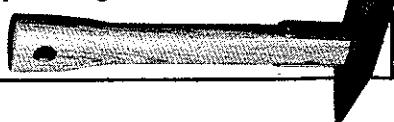

AXE, ICE, MOUNTAIN Stock No. 74-A-75

An implement used by Mountain Troops for cutting steps in steep ice and snow and for probing for crevasses on glaciers. The shaft is also used as a point around which the mountain rope can be snubbed by one member of a roped party to stop the others from falling in the event of a slip on steep terrain. As a walking stick it reduces the weight on the legs and aids the balance, especially when heavy loads are carried. When the pick end of the head is shoved into turf, gravel or hard snow the blade end makes an excellent handhold.

HAMMER, PITON, MOUNTAIN Stock No. 74-H-50

A special hammer used by Mountain Troops, to drive pitons into cracks in the rock and in ice. It may be secured to the wrist by a short leather thong looped through the hole in the handle.

SNAPLINKS, MOUNTAIN Stock No. 74-S-295

A steel link used to attach the mountain climbing or holding rope to the pitons and to transmit strain from the rope to the piton in the event of a fall. These are made to withstand a pull of 2000 lbs. and can be easily manipulated with one hand.

Fig. 1—The Snaplink, Mountain

Figs. 2 and 3—Piton, Mountain, Type I, attached to the Snaplink

PITONS, MOUNTAIN

Fig. No.	Type	Stock No.
3	I	74-P-133-15

BAG, SLEEPING, ARCTIC

Stock No. 27-B-265—Large Stock No. 27-B-270—Regular

Fig. 1—Inner Comforter with Zipper

Fig. 2—Outer Comforter with Zipper

Fig. 3—Waterproof Wrap Cover

Fig. 5—Bag with Head Cover Opened

Fig. 4—Bag Partially Opened

Fig. 6—Bag Rolled Up

Bag, sleeping, Arctic, M-1942, consists of two down and feather filled cases for use in extreme low temperatures. The inner bag is mummy shaped. A full length zipper is used to close the quilt shaped outer bag. A waterproof wrap case, having flaps and tie tapes, is provided for carrying both rolled bags. The stock of this bag is low.

There is also being issued under the same stock number a bag, sleeping, Arctic, which consists of two mummy shaped down and feather filled bags; case, water repellent, for bag, sleeping, mountain, and waterproof cover, for use in extreme low temperatures. Bag, sleeping, mountain, is used as the inner bag, and the outer bag is of similar design and construction. Tie tapes on the foot of bag, sleeping, Arctic, extend through openings in the bottom seam of case, water repellent, to hold the bags in a compact unit when rolled. A waterproof cover is provided to protect the bag. This bag is not illustrated.

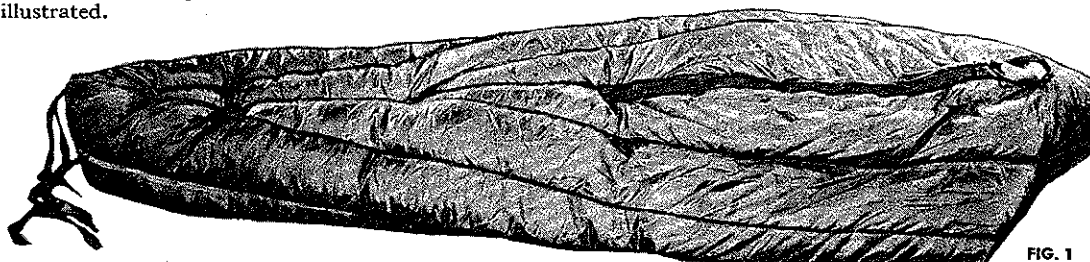

FIG. 1

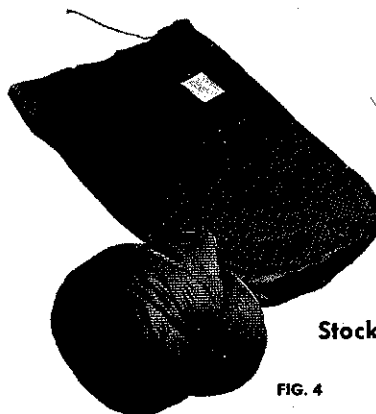

FIG. 2

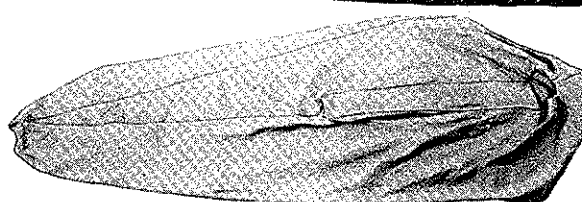

FIG. 3

BAG, SLEEPING, MOUNTAIN

Stock No. 27-B-302—Large

Stock No. 27-B-304—Regular

CASE, WATER REPELLENT, BAG, SLEEPING, MOUNTAIN

Stock No. 27-C-123

Fig. 1—Bag, Sleeping, Mountain

Fig. 2—Carrier, Bag, Sleeping, Mountain

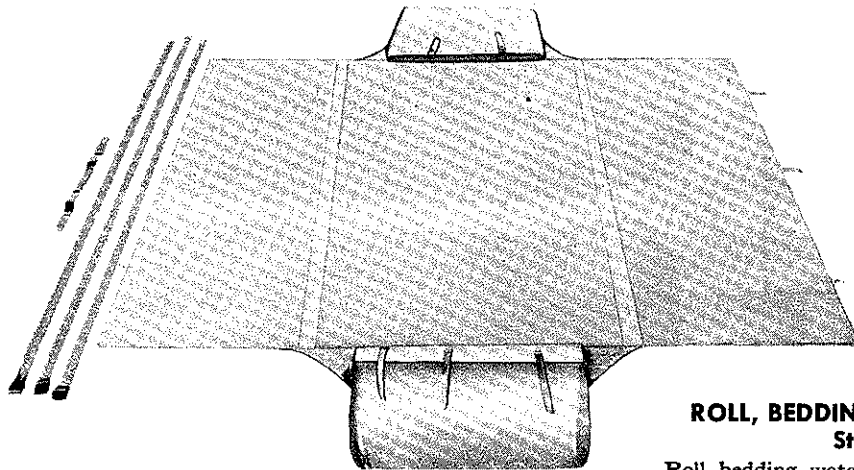

Fig. 3—Case, Water Repellent, Bag, Sleeping, Mountain

Fig. 4—Bag, Sleeping, Mountain, Rolled Up

The bag, sleeping, mountain, is a mummy shaped, down and feather filled sleeping bag, made in regular and large size, in which an over-lapping tube construction prevents the entry of cold air at the stitching. The shape and design gives maximum warmth with minimum weight. Tie straps are attached to the foot of the bag. The case, water repellent, is made of poplin and provides a wind resistant cover for the sleeping bag. Two openings in the seam at the foot of the case, water repellent, allow the tie straps on the bag, sleeping, mountain, to be drawn to the outside to hold the items in a compact unit when rolled. A waterproof bag is provided for protecting the rolled bag.

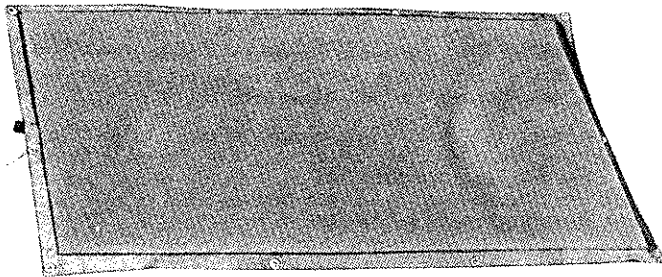

BAG, SLEEPING, KAPOK

Stock No. 27-B-290

ROLL, BEDDING, WATERPROOFED, M-1935
Stock No. 24-R-110

Roll, bedding, waterproofed, M-1935, is a water-repellent treated fabric roll to be used for carrying bedding and other articles of personal equipment or clothing. When unrolled it may also be used as a ground sheet.

PAD, INSULATING, SLEEPING

Stock No 27-P-170—Filled Type (illustrated)

Stock No. 27-P-172—Inflated Type

The pad, insulating, sleeping, is issued for use with a sleeping bag. It provides insulation against cold and also resistance to transmission of moisture from the ground into the bag. The filled type pad, size 20" x 37", consists of a light weight filling material contained in a coated fabric case. It can be inflated slightly, but derives its insulating properties from the filling material. The inflated type pad, size 20" x 36", has no filling material but derives its insulating properties from the air cushion obtained when it is inflated.

HEADNET, MOSQUITO, M-1942
Stock No. 27-H-195

Headnet, mosquito, is provided with a featherbone grommet to keep it away from the face, and is attached by means of a drawstring at the top to the helmet or other headgear. A drawstring at the bottom permits adjustment across the shoulders.

BLADDER, FLOTATION, JUNGLE

Stock No. 74-B-308

FIG. 3

Fig. 1—The bladder before being inflated.

Fig. 2—Bladder inflated.

Fig. 3—The bladder can be seen placed inside of the suit, one-piece, jungle.

FIG. 1

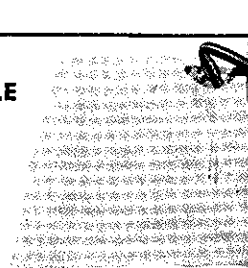

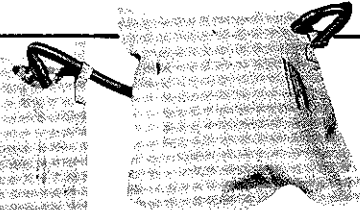

FIG. 2

The jungle soldier is provided with two rubberized fabric bladders, each displacing between six and eight pounds of water. These bladders can be easily and rapidly inflated by blowing through a small rubber tube and then closing this tube by tucking the end under a fabric loop. When inflated the bladders will easily keep the wearer afloat. They can also be utilized as auxiliary canteens.

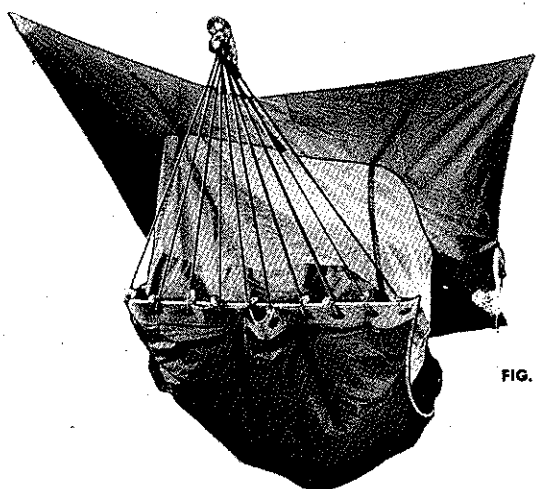

FIG. 1

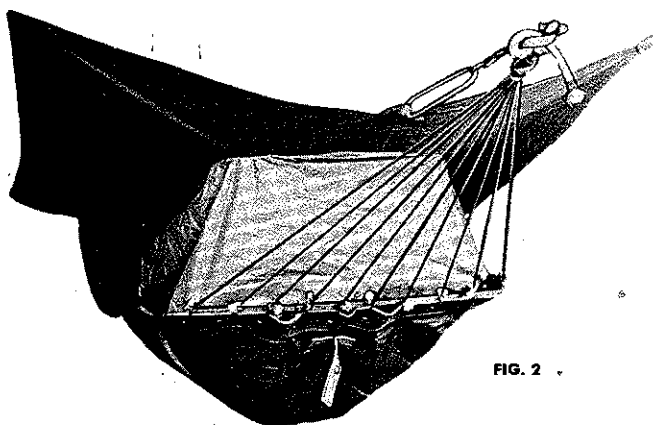

FIG. 2

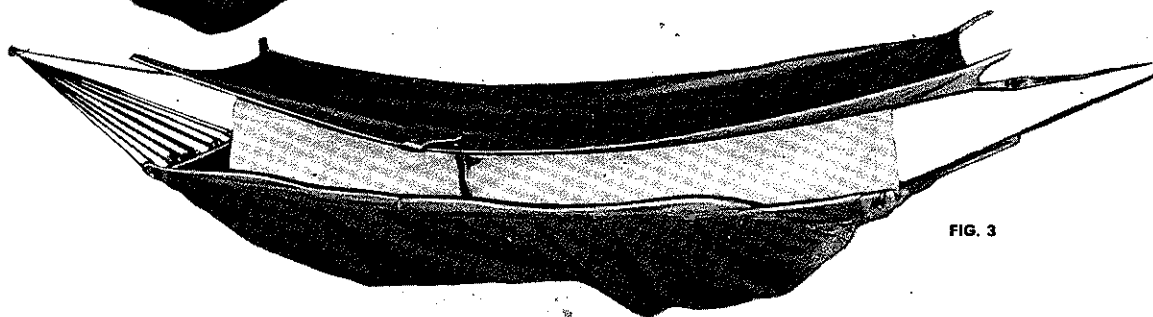

FIG. 3

HAMMOCK, JUNGLE, COMPLETE Stock No. 74-H-60

Hammock, jungle, has been developed for use primarily by troops operating in densely wooded jungle areas where conditions do not permit bivouac on the ground. It combines the functions of a hammock, insect bar, and a water-proof tent fly and enables men to sleep off the ground thus avoiding dampness and insects while at the same time carrying the minimum weight and bulk of sleeping equipment. It can be pitched as an individual tent when the soldier is forced to sleep in treeless areas. Figures 1 and 2—The respective ends of the hammock, jungle. Figure 3—A side view.

MACHETE, 22" BLADE, M-1939 Stock No. 74-M-118

LIMITED STANDARD—To be issued until exhausted.

SHEATH, MACHETE, 22" BLADE, M-1939 Stock No. 74-S-108

LIMITED STANDARD—To be issued until exhausted.

Figure 1—The machete has a smooth, plastic handle, which must not be roughened or covered with adhesive tape if the efficiency of this tool is to be maintained. The machete must be sharpened to a tapered rolled knife edge by grinding it on a stone, sharpening, pocket, or a water-cooled, natural-stone grindstone. A hole is drilled in the handle of the machete for attaching a loose wrist cord to pass around the wrist and keep the machete from being dropped.

Figure 2—Sheath, machete, for the 18" machete is made of stout, water-repellent duck that resists mildew and jungle dampness. To keep the sheath from being cut by the machete a brass top and metal staples are used. The brass top also serves as a spring to grip the machete blade and thus prevent the machete from falling out of the sheath.

STONE, SHARPENING, POCKET Stock No. 41-S-5227

A small sharpening stone designed to sharpen all types of edged steel instruments such as machetes, knives, shovels, axes, bayonets, etc. Its coarse side is for restoring edges on dull or nicked instruments, and its fine side is for finishing edges so that they are keen and smooth. It weighs only $3\frac{3}{4}$ ounces and is $3\frac{1}{4}$ x $1\frac{1}{4}$ x $\frac{1}{8}$ inches in size.

MACHETE, 18" BLADE, M-1942 Stock No. 74-M-114 (Illustrated)

SHEATH, MACHETE, 18" BLADE, M-1942 Stock No. 74-S-109 (Illustrated)

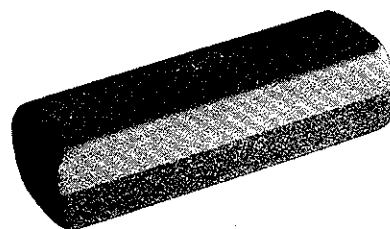

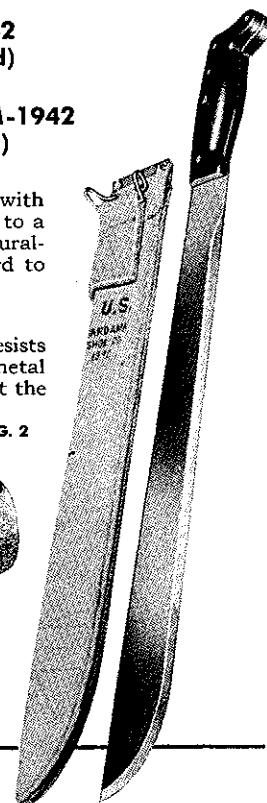

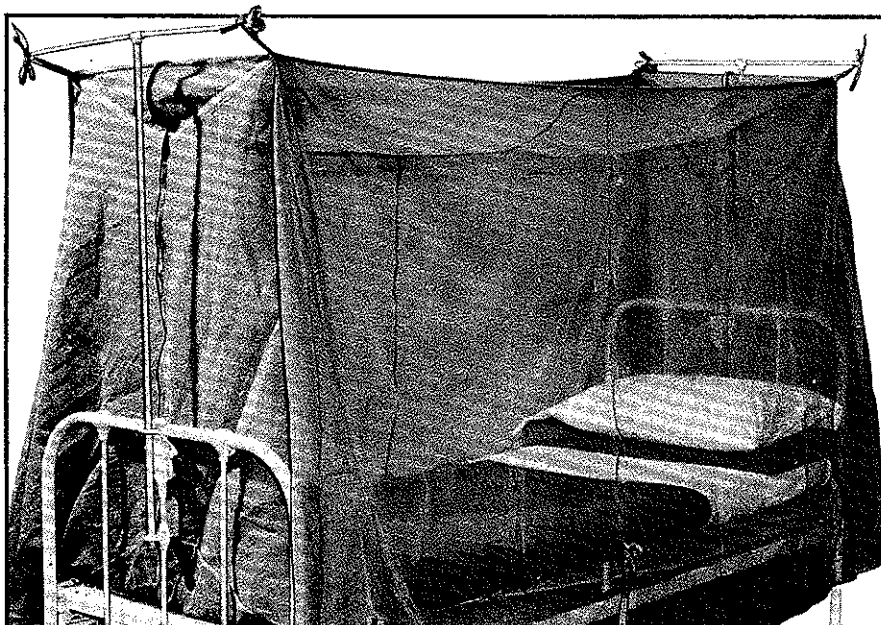

FIG. 2

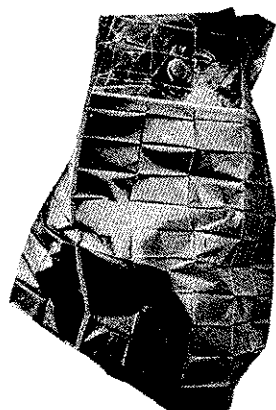

INDIVIDUAL EQUIPMENT

BAR, INSECT, FIELD
Stock No. 27-B-343

Bar, insect, field, is a netting canopy of relatively small mesh, designed for protection against sandflies and other small insects as well as mosquitoes. It has been basically designed for use with the shelter, tent, having tie tapes that correspond in location to the pegs of the tent, but it may also be used over cots or hospital beds. Shrinkage which will occur in laundering can be removed by stretching in use.

**COVER, PROTECTIVE,
INDIVIDUAL**

Stock No. 72-C-1000

An expendable cover which can speedily be put on and will protect the individual from liquid vesicants and blistering gases sprayed from the air.

BAR, MOSQUITO **Stock No. 27-B-348**

The bar, mosquito, was originally developed for barracks use, and is provided with a wide skirt of sheeting around the bottom to prevent damage when tucked in at the bottom of a metal wire-spring cot. For field use this item has been replaced by the bar, insect, field, which has a smaller mesh, and thereby protects against sandflies and other small insects as well as mosquitoes.
