hands, insect bites

Active Ingredients:
Hydrogenated vege-
table Oil, Liquid
Petrolatum, Boric
Acid and Lanolin

The
Barbasol Company
Indianapolis, U.S.A.
Net wt. 2.3 oz

DIRECTIONS

- 1- WASH YOUR FACE in the usual way with your favorite facial soap
 - 2- Leave the face wet.
 - 3- Spread, BUT DON'T RUB IN, enough Barbasol to fill the spaces between the beard stubbles.
 - 4- Wet the razor blade and shave.
- Apply liberally the first day. On the following days, experiment until you find the least quantity for YOUR beard.
- After the Barbasol shave, rinse the face or not as you prefer. Many men like to rub the Barbasol that remains on the face into the skin. No after-shaving lotions or talcum powder are needed. The skin is smooth and soft without them.
- Shaving with Barbasol is just as simple as it is quick. Don't attempt to make it complicated.
